## MATTHEW JONES

Matt Jones is known as the “Seven Continent Marathon Man.” He went from being a three-time cancer conqueror to relearning how to walk, to going through a bone marrow transplant, to completing seven marathons on seven continents and yes that includes Antarctica. He is now training for his next “marathon” which is to climb Mount Kilimanjaro. Matt was diagnosed with cancer on September 11, 2002. After spreading to the fluid in his brain doctors did not think he would live. After victoriously conquering cancer he was told that there has never been anybody go through what he went through

and be alive one year later. Baseball Hall of Famer George Brett said, “Matt is a true champion and his story inspires others to be a true champion.” Olympic gold medalist Scott Hamilton said, “Matt Jones has done what anyone would consider impossible. Conqueror. Overcomer. Champion. Superhuman.” Matt is the author of ten books and travels around the world sharing his inspiring story and message.
