

VISIONARY TECHNOLOGY PIONEER

PAUL SELLS

DIRECTOR OF INDUSTRIAL SOLUTIONS – DAQRI

As Director of Industrial Solutions at Daqri, Paul Sells is at the forefront of augmented reality technology and wearable technology that incorporates augmented reality. The DAQRI Smart Helmet® was recently featured in the Tech Experience at CONEXPO 2017. Paul will speak to the future of augmented reality in the construction industry, the future of 3D printing employing software defined light, and other cutting-edge technologies that are transforming the way we work and reshaping our industry.
