### ***BACKGROUND INFORMATION***

Hosted by Ministry of Industry and Information Technology, organized by China National Postal and Telecommunications Appliances Corporation, PT/EXPO CHINA 2017 will be held in China National Convention Center in Beijing on September 27<sup>th</sup> -30<sup>th</sup> 2017. Meanwhile, ICT China High-level Forum 2017, known as the "Davos Forum" in the ICT field, will be held with the theme of Celebrate "IN" World: Internet, Integration & Innovation including opening ceremony, ICT Leadership Forum, Seminars and conference for new products etc..

Influential guests of government officials, industry leaders, renowned experts and scholars from both China and overseas will be invited to the forum. ICT China High-level Forum 2017 is a valuable platform for policy interpretation, international cooperation, industry communication and enterprises showcasing. The subjects will cover cutting-edge technologies such as 5G, Cloud Computing, Big Data, NB-IoT, MEC, SDN/NFV, national strategies such as "Made in China 2025", IoT, as well as revolutionary topics such as mass entrepreneurship and innovation.

ICT China High-level Forum has been successfully held for 12 times. Wide attention has been paid from inside and outside the industry for its constant principle of international view, specialization, branding impact, and innovation spirit and the provision of the best business values for all parties in the industry chain. The forum has become one of the most famous and influential annual events in the ICT field.

### ***FEATURES***

***I International view.*** The forum is one of the top international industry summits held in China. ICT authorities from China, Europe, North America, Asia Pacific and other regions and well-known ICT corporate executives will be invited, discussing the growth trend of the global ICT industry and its innovation and revolution.

***II Specialization.*** The forum is a communication platform tailored for the industry insiders. The theme, contents, and subjects are well selected based on scientific studies to ensure the effectiveness of the discussion and boost the growth of ICT and related industries.

***III Branding Impact.*** The forum pays attention to the cultivation of brands and business reputation of participating guests and enterprises. The enterprises will receive outstanding marketing results, raise their industry reputation, and get sound industry resources.

***IV Innovation spirit.*** The forum is a collective demonstration of the annual innovation results in the ICT field. Taking the enterprise and people that make significant contributions to technologies, products, services, and business modes as the role model, the forum will highlight the innovative spirit, advocate self-innovation, and promote the realization of China Creation.

### ***HIGHLIGHTS***

- a. Highest-profile annual event in the ICT field, known as the “Davos Forum” in the ICT field.
- b. Most influential keynote speakers in the internet society, with the impassioned and professional insights of technology and business.

c. More than 300 senior level conference attendees, a great platform for cross-boundary networking and collaboration.
