PURLS Journal Club

The nature of PURLs is that they are practice-changing updates from current research literature. This means that occasionally there are times when no research is considered to be “practice changing” by FPIN experts and therefore no PURL articles are written.

Stay tuned for new updates to the PURLs Journal Club!

PURLs Journal Club Toolkit includes:

- Instructions
- Detailed presenter/speaker notes
- This month features the teaching points: **Clinical vs Statistical Significance, Confounding (Updated)**
- Journal club worksheet
- Copy of the published PURL
- Potential PURL review form
