HB142	2013-2014 Regular Session - HB 142 Georgia Government Transparency and Campaign Finance Commission; change certain provisions	(1) Ralston, David 7th (2) O'Neal, Larry 146th (3) Smyre, Calvin 135th (4) Jones, Jan 47th (5) Lindsey, Edward 54th (6) Smith, Richard 134th	HC: Rules SC: Rules	Summary Mar/28/2013 - House Conference Committee Report Adopted	(Monitor) In short, HB 142 and HB 143 would ban most individual "gifts" from lobbyists, while broadening requirements for lobbyist registration and granted expanded authority to the State Ethics Commission. As drafted, the legislation did exempt legislative committees, sub-committees, and caucuses. The legislation was passed by the House and assigned by the Lt. Governor to the powerful Senate Rules Committee. The Rules Committee heard public comment on Tuesday of this week and subsequently passed out a committee substitute that stripped most of the original language. The Senate's version eliminates the one-on-one ban in favor of their version of a \$100 gift cap. It also removes exemptions for committees, caucuses, and delegations. It also provides that unpaid lobbyists do not have to register. The final passage of the ethics bill establishes a \$75 gift cap, prohibits international travel, and limits committee dinners to 1 per calendar year. It also provides that anyone being reimbursed less than \$250 per year does not have to register to lobby. It passed both Chambers unanimously. HB481	2013-2014 Regular Session - HB 481 Ethical Treatment of Human Embryos Act; enact	(1) Neal, Jay 2nd (2) Kirby, Tom 114th (3) Taylor, Darlene 173rd (4) England, Terry 116th (5) Sheldon, Donna 104th (6) Nix, Randy 69th	HC: Judiciary SC:	Summary Feb/27/2013 - House Second Readers	H.B. 481, sponsored by state Rep. Jay Neal, R-LaFayette, is titled the "Ethical Treatment of Human Embryos Act." SB 481 would make it illegal to: -- "Create or attempt to create a human-animal hybrid;" -- "Transfer or attempt to transfer a human embryo into a nonhuman womb;" -- "Transfer or attempt to transfer a nonhuman embryo into a human womb" -- Transport or receive for any purpose a human-animal hybrid or any product "derived from such a hybrid." Nothing in the bill would prohibit: -- "Research involving the use of transgenic animal models containing human genes; -- "Xenotransplantation of human organs, tissues or cells into recipient animals; -- "An individual from receiving nonhybrid organs, tissues or cells delivered from outside of this state...." The legislation also states that: "In disputes arising between any parties regarding the in vitro human embryo, the judicial standard for resolving such disputes shall be in the best interest of the in vitro human embryo."
SB224	2013-2014 Regular Session - SB 224 Invest Georgia Fund; create	(1) Golden, Tim 8th (2) Shafer, David 48th (3) Chance, Ronnie 16th	HC: Ways & Means SC: Insurance and Labor	Summary Mar/25/2013 - House Withdrawn, Recommitted	(Support) Invest Georgia will be overseen by a five-member appointed board. Through a competitive bid process the board will select a third-party fund administrator, which will then competitively select venture capital funds to manage investment activities focused on both Georgia early or seed stage and growth stage companies. The venture capital funds must have or establish a physical presence in Georgia in order to ensure that the investments are Georgia-focused. The State will contribute \$95 million over a five-year period into the Fund to serve as principal. The returns from the investments by the venture funds would be distributed in the following manner: the principal amounts of the investment will be retained by the Invest Georgia Fund as well as 80 percent of the profit, while the remaining 20 percent will be retained by the venture fund as profit. The Invest Georgia Fund is created as a separate fund maintained by the board and will be capitalized through grants from the existing Seed-Capital Fund, designated State appropriations to ATDC, and private contributions to the board. The capital raised will be periodically distributed to the venture capital funds selected by the fund administrator. State funding will be dispersed annually over a five-year period in the following amounts: \$10 million; \$10 million; \$15 million; \$25 million; and \$35 million. The legislation was placed on the House floor on Friday and was never taken up.
