Productivity Models in Home Health and Hospice

presented by
Karen A. Vance, OTR,
Supervising Consultant,
BKD Health Care Group, Colorado Springs, CO

Tuesday, February 10, 2015 * 2:00 – 3:30 p.m. EST

Webinar Overview: Traditional standard of measuring productivity in home health and hospice is counter intuitive to the product being delivered. This session will discuss the flawed logic of longstanding assumptions behind productivity measures. We will then introduce an alternative that better aligns the product sold with the measures of productive service delivery. Sample processes and tools will be used to illustrate operationalizing this productivity model.

Objectives: After attending this webinar, the home health participant will be able to:
- Explain baseline assumptions for productivity standards;
- List strategies for effective productivity monitoring; and
- Describe elements for objective management of productivity.

Speaker:
Karen A. Vance, OTR
Supervising Consultant
BKD Health Care Group, Colorado Springs, CO
Karen has been with BKD Health Care Group since 2003, delivering clinical and operations consulting services to home care providers. She also provides reimbursement and compliance consulting services and helps home care providers establish and maintain quality management practices.
