

# T-Con Committee

ISAWWA Technology Committee

**Chair: Doug Strempek [dstrempek@villageofnorridge.com](mailto:dstrempek@villageofnorridge.com)**

## **MISSION:**

Providing water and wastewater professionals with opportunities to improve their understanding of how technology improves water/wastewater system design, conveyance, distribution, overall treatment, and maintenance.

## **GOALS:**

- Three webinar-based training opportunities annually;
- A variety of speakers each year for webinars;
- Majority of committee members attend 80% of all meetings;
- Support other committees on technological related topics;
- Improve committee recognition.

## **PROFILE OF THE COMMITTEE:**

T-Con is a technically-minded group of individuals with a shared passion to educate water and wastewater professionals in Illinois on the value and influence of technology in their jobs. We are a sub-committee of the Education Committee and we meet approximately once per year with conference calls periodically during the year. The main focus of the committee is to coordinate and host webinars throughout the year on technology minded topics. This group also supports the other committees in the ISAWWA.

## **WHY WOULD YOU WANT TO BE INVOLVED IN THIS COMMITTEE?**

Committee members have fun together while talking tech. Committee members don't have to be tech-savvy, just share an interest in using technology to improve the efficiency of water professionals. We observe, first-hand, cutting-edge technologies prior to public release.
