

Job Title: Senior Wetland Scientist

Salary/Compensation: Commensurate with qualifications, experience and market growth potential.

Location of position (City/town): Bridgewater or Westford, MA

Employer: Coneco Engineers & Scientists

Description of employer: Coneco is a regional consulting company of approximately 50 professionals with offices in Bridgewater, Westford, and Glastonbury, CT. We offer a wide array of professional services including environmental, survey, license & permitting, alternative energy and civil engineering to our public and private sector residential, industrial, and commercial clients. Please visit our website at www.Coneco.com for more detailed information.

Work schedule: Full time 40 hours per week including field and office work as well as evening hearings.

General Job description: Senior Wetland Scientist responsible for the oversight of ecological licensing and permitting projects, working closely with the other groups within our company and our existing client base. A short list of responsibilities include performing/overseeing wetland delineations; preparing local, state, and/or federal permit applications; performing environmental assessments and studies; developing restoration plans; and attending/presenting at public hearings.

Qualifications: Candidates must have 8 plus years of demonstrated pertinent field experience and have strong written and verbal communications skills, as well as the ability to mentor junior staff both in the field and the office. Position will require client interaction therefore ability to manage existing client relationships while cultivating new clients is a plus. Professional Wetland Scientist Certification is a plus as well.

For More Information and How to apply: Please visit our website at www.Coneco.com for more detailed information. Interested candidates may submit their resume with a cover letter to Mr. Richard Lewis at rlewis@coneco.com.
