

2017 OPEN SPACE INTERN PROGRAM

The Town of Danvers is a municipality of about 26,000 population located on the North Shore of Massachusetts, comprising an area of approximately 14 square miles. The Town has over 350 acres of open space lands which are available to the public for use for passive recreation including walking, bird watching, picnicking, fishing, and canoeing. Some of the Town's land holdings have been improved to provide amenities such as parking areas, picnic areas, walking trails, and canoe launch ramps. Seasonal staff is needed to maintain and improve these special places.

FIELD TECHNICIAN FOREMAN

DUTIES INCLUDE: Overseeing and directing other interns on the maintenance of existing open space and passive recreation lands, including grounds and facilities, the monitoring of the use of these lands, and the construction of new trails and facilities. Identifying open space projects for implementation and coordinating work with Town departments.

QUALIFICATIONS: A responsible person with prior management experience who is able to work as a team leader as well as independently. A positive attitude, self-motivation, and organizational skills are a must. Experience with tools and power equipment associated with grounds and building maintenance is required.

SALARY: \$14/hr
