

## Wilkinson Ecological Design - Associate Restoration Designer

Salary/Compensation: Competitive, commensurate with experience

Location of position: Orleans, MA (Cape Cod)

### Description of employer

Wilkinson Ecological Design's mission is to protect and restore the integrity and biodiversity of the unique coastal ecosystems of New England. WED is a vibrant, cutting-edge company focused exclusively on Ecological Restoration from the design and permitting phases through to the construction and management phases. Since our founding in 1999, we have been a leader in hundreds of ecological restoration projects for land trusts, governmental agencies and private individuals. To learn more, please visit <http://www.wilkinstonecological.com>

Work schedule: Full time, year-round. Monday-Friday.

### General Job description:

The Associate Restoration Designer produces documentation for land management programs and restoration projects. The ARD ensures that all documentation is conducted within the parameters of the work orders to meet client needs and regulatory requirements, and is consistent with WED's mission and guiding principles. S/he conducts research, completes thorough and detailed site analysis evaluations, performs associated fieldwork, including analyzing and identifying soil and plant samples, and documents field investigations in written, verbal and graphic form.

### Qualifications:

- Master's degree in Landscape Architecture/Environmental Planning/related field preferred and 1+ year of relevant design experience in ecological restoration/landscape design/related field, or Bachelor's Degree with 3+ years relevant experience.
- Knowledge of invasive plant species, control/management techniques, Cape Cod native plant communities
- Valid Driver's License; MA Pesticide License/Certification (within 60 days of hire); MA Invasive Plant Certificate (within 18 months of hire)
- Proficiency with AutoCAD, Adobe Creative Suite, Microsoft Office
- Experience with Rhino 3ds, Sketch-up, ArcGIS, GPS

Deadline to apply: n/a
