

Digital Nations Group Meeting

Tuesday May 9 and Wednesday May 10

Agenda and logistics

The Digital Nations Group (DNG) is an important new global strategic initiative from DWG, focusing on the digital transformation of non-corporate entities – to create a more digitally integrated public and civic sphere globally.

DNG enables governments, public agencies, charities, NGOs and related bodies to plan and manage their digital transformation by connecting with similarly minded entities in a safe and protected environment. Once in action, Digital Nations Group acts as an accelerator in creating a more integrated public and civic sphere globally – free from the limitations of gravity-laden physical geography.
