

**Use less.
Pay less.**

*your community-owned
electric utility wants to
lower your bills!*

FIVE

ways to save

- 1 UNPLUG** all devices and chargers not in use
- 2** Wash your clothes in cold water
- 3** Change your air filters
- 4** Lower your water heater's temperature to 120 degrees
- 5** Adjust your thermostat before you go to sleep — a little colder in the winter and a little warmer in the summer
