

eReliabilityTracker™

Finally, a tool to showcase your hard work!

- Proven Reliability Indices Tracking Program
- Fully funded by MPOA as a service to MoPEP members
- Allows City to track the performance of the Distribution System
- Identify trouble areas in the system
- Help justify budgets for system improvements
- Benchmark City's performance against Missouri IOUs
- Benchmark City's performance against Member Peers in MPOA
- MPOA is available to assist Cities with implementation of the program

eReliability Tracker will help to simplify operations decisions by providing detailed outage summary reports and mobile support for field employees
