

National Fenestration Rating Council Bulletin

www.nfrc.org

August 11, 2014

Subject: NFRC – PCP Bulletin 2014-05 (Action May Be Required)

This bulletin announces a modification to the Certified Product Directory (CPD) to implement Phase I for Air Leakage (AL).

Item 1: Air Leakage Phase I Complete

The [CPD](#) has been modified to include the \leq (less-than-or-equal-to) symbol for the AL rating at the following locations: product line details page, Certification Authorization Reports, and CPD [public search directory](#).

Item 2: Air Leakage Phase II Reminder

Phase II to modify the CPD for product lines that list the optional rating of AL will be implemented on January 1, 2015: product lines in the CPD will only display an air leakage rating of ≤ 0.3 or ≤ 0.5 for the appropriate product type in public search.

Participants are authorized to continue to use the previous AL ratings of 0.1, 0.2, or 0.3. The deadline for Participants to have the proper AL ratings in the CPD and for use on temporary labels is January 1, 2015.

Note: AL ratings will remain an optional performance and are not required for NFRC product certification.

Refer to [NFRC Bulletin 2014-01](#) for air leakage laboratory and IA requirements and NFRC technical documents.

If you have any questions concerning the information in this *NFRC PCP bulletin*, please contact [Sherri Wendt](#) at 240-821-9516.
