November 17, 2014

Subject: NFRC – PCP Bulletin 2014-07 (Action Required)

This bulletin announces the publication and implementation of the NFRC 700-2015 E0A0 and NFRC 702-2015 E0A0 with approved ballots from the Fall 2014 Membership Meeting, publication and implementation of the NFRC 706-2015 E0A0 and NFRC 714-2015 E0A0, and implementation of the Certificate of Authorization which was recently deployed into the CPD.

Item 1: Publication and Implementation of NFRC 700-2015 E0A0

The NFRC Board has approved [NFRC 700-2015 E0A0: NFRC Product Certification Program](#) document, which is published and implemented and available on the NFRC Website.

- Summary of the NFRC 700 Board approved changes:
 - Ballot from the Spring 2012 Committee Week
 - TDD/HTDD: Test Only & VT Rating
 - Language was revised to reflect that a TDD/HTDD may only achieve NFRC approved ratings with test only procedures.
 - The NFRC 203 was implemented and published on May 9, 2013, manufacturers will be able to label and market TDD/HTDDs with a NFRC VT rating. Language and temporary label examples were modified to reflect the new requirements when implemented.
 - Ballot from the Spring 2013 Committee Week
 - Certificate of Authorization
 - Language was revised to remove the requirement of an IA to send the CAR to the manufacturer and instead require an IA to send a single page document called a Certificate of Authorization (CA).
 - For additional information see Item five below.
 - Ballot from the Fall 2013 Membership Meeting
 - Air Leakage - CA Title 24
 - Language was modified to reflect changes for the optional Air Leakage rating labeling requirements for swinging doors.
 - Submittal Form
 - Language and form was modified to clarify the requirement to complete and forward a submittal form for test samples to

the NFRC accredited laboratory.

- [Download Manufacturer Submittal Form here.](#)

Item 2: Publication and Implementation of NFRC 702-2015 E0A0

The NFRC Board has approved [NFRC 702-2015 E0A0: NFRC Certification Agency Program](#) document, which is published and implemented and available on the NFRC Website.

- Summary of the NFRC 702 Board approved changes:
 - NFRC 702, Modifications to a product line
 - Section 4.1.2.A (ix).b: Modifications to language were made to support previous modifications made to the NFRC 700, Section 4.3.5, for modifications to a product line. The new language provides guidance of the necessary steps to follow when adding modifications to a NFRC-certified product line.

Item 3: Publication and Implementation of NFRC 706-2015 E0A0

The NFRC Board has approved [NFRC 706-2015 E0A0: NFRC Requirements for Participation Insulating Glass Certification Programs](#) document, which is published and implemented and available on the NFRC Website. This document was reaffirmed by the Board and contained no changes.

Item 4: Publication and Implementation of NFRC 714-2015 E0A0

The NFRC Board has approved [NFRC 714-2015 E0A0: NFRC Challenge and Appeals Procedure](#) document, which is published and implemented and available on the NFRC Website. This document was reaffirmed by the Board and contained no changes.

Non-NFRC Members may obtain the documents by clicking on this link to the [NFRC Program Documents Page](#) on the NFRC website.

Item 5: Certificate of Authorization

The new report feature of a Certificate of Authorization (CA) report is now fully implemented with the release of NFRC 700-2015 E0A0. NFRC Inspection Agencies shall provide participants with a CA for product authorization. The CA contains administrative information detailed in the CPD such as the manufacturer name and contact information, the CPD number, the product model/series name, product type, ratings that are authorized for certification, test and simulation laboratory and report information, as well as the range of CPD numbers currently authorized for certification. There is a link to the public search results for that particular product line. The link to the search results is there to make it easy for viewing product line information.

The Certification Authorization Report (CAR) can still be provided to participants upon request to the participant's NFRC Inspection Agency for use as a secondary method for labeling purposes. For product lines exceeding 40,000 options (when expanded) NFRC Participants will be expected to use the Export tool to retrieve

product line data ([Click here to login to Export Tool](#)).
