

# National Fenestration Rating Council Bulletin

www.nfrc.org

March 4, 2014

## **Subject: NFRC – Technical Bulletin 2014-02 (Information Only)**

This bulletin relates to the publication and implementation of revised versions of NFRC 701.03, 701.06, and NFRC 101.

### **Item 1: [NFRC 701.03-2014\\_E0A1](#)**

The NFRC Board of Directors approved the revision to NFRC 701.03-2014 to be implemented for use immediately upon publication. The revisions clarified the definition and acceptance of a Bill of Materials (BOM) to be used in the report and new language was added for reporting the description of shading systems.

### **Item 2: [NFRC 701.06-2014\\_E0A1](#)**

The NFRC Board of Directors approved the revision to NFRC 701.06-2014 to be implemented for use immediately upon publication. The revision allows an IA to review and accept an air leakage rating reported from a non-NFRC laboratory. Please note that non-NFRC 400 accredited laboratories are required to undergo a review process to be recognized by the NFRC. That recognition process is outlined in [NFRC 701.11-2014](#).

### **Item 3: [NFRC 101-2014\\_E0A0](#)**

This document was a 2010 standard but was updated to 2014. Revisions were made to the 101-2013<sub>E7A35</sub> version before converting to 101-2014<sub>E0A0</sub>. The updated NFRC 101 standard has been published and may be downloaded by clicking on the document name. Non-NFRC members may access the documents by [clicking on this link to the Technical Documents page on the NFRC website](#).

Several materials were removed from Appendix C and are shown as struck out on [the Addendum Log](#). Please be aware that materials not listed in NFRC 101 shall not be used for product certification. The main document and its addendum log may be found on the Technical Documents page of the NFRC website.
