## Air Leakage Rating Update

As of January 1, 2015, only proper Air Leakage ratings are allowed for use on the NFRC temporary label per the [NFRC 700, Section 6.5.A.iii](#). The CPD has been modified to only display proper Air Leakage ratings as entered by your Inspection Agency (IA) ( $\leq 0.3$  for windows, skylights, and sliding glass doors;  $\leq 0.3$  or  $\leq 0.5$  for swinging doors and sidelites). If your window, swinging door, or sidelite is not displaying a value in the CPD Public Search, you will need to contact your IA to have your rating updated.

View the following bulletin for further details of the optional performance rating of Air Leakage:
