

National Fenestration Rating Council Bulletin

www.nfrc.org

January 21, 2015

In order for NFRC to balance the costs associated with administering the NFRC's Independent Verification Program (IVP), some fees were modified for the 2015 fiscal year. The fees NFRC testing laboratories can submit for payment has been reduced to \$1450. The cost cutting measure is to support the costs for the additional testing to meet the 10% verification testing criteria established by the EPA.

Laboratories are not the only group facing a fee reduction; NFRC has taken other cost-cutting measures by reducing the amount of reimbursement to manufacturers for the cost of the product and shipping costs.
