

NFRC PCP Bulletin 2011-04

PROCEDURES: NFRC 706-2011
DATE: April 7, 2011
SUBJECT: Approving IG Certification Extension Requests

This bulletin relates to NFRC's continued guidelines for reviewing IG Certification extension requests for NFRC participants.

If you have any questions concerning the information in the *NFRC Bulletin*, please contact NFRC at 301-589-1776; email: info@nfr.org.

Approval Guidelines for IG Certification Extension Requests

The NFRC Certification Policy Committee and NFRC Executive Committee have been accepting and, if applicable, approving many extensions regarding the requirement for IG Certification since the inception of the requirement on July 1, 2010.

The NFRC Board of Directors have unanimously approved the following criteria regarding approving requests for IG extensions:

Requests for extensions of the NFRC IG Certification requirement will not be granted beyond June 30, 2011 without documentation from a listed NFRC IGC entity that states the product in question cannot be addressed under the current test procedures.

This guideline allows NFRC participants to continue forwarding requests for an IG Certification extension; however, there are specific criteria required with which an extension will be approved.

Please visit the NFRC Exemption / Extension Request [Webpage](#) to obtain information or forms to be used. The Webpage contains the proper request forms in Word or PDF format, which can be completed and submitted to the appropriate party.

Please visit the NFRC IG Certification [Webpage](#) which contains the NFRC IGC Directory listing the NFRC IG Certification Programs.

This bulletin can be downloaded on the NFRC PCP Bulletin [Webpage](#).
