

LAPI-2008-01 06/23/2008

NFRC LAP Interpretation – 2008

Interpretation Requested:
May the laboratory waive the reporting requirement stated in the LAP, Section 4.9.2.R, when reissuing reports to fabricators that did not physically submit a test sample for validation testing? And, may we exclude the "Submittal Form Test Samples" document as required per the PCP, Appendix D?

Interpretation:
<p>Yes. When reissuing reports to a fabricator or authorized private labeler that did not submit a test sample for validation testing, the following shall be included in the report:</p> <ol style="list-style-type: none"> 1. Clear indication that the report is a Reissued Report 2. Statement that indicates that the report was reissued via authorization from the lineal supplier, or private labeler, and that no test sample was submitted for testing; 3. Indication from the fabricator whether the report was reissued for Initial Certification or Recertification of the product line. (Note: Testing laboratory not responsible to indicate whether the report is a plant qualification)
