## **Subject: NFRC – Technical Bulletin 2013-10 (Information Only)**

This bulletin announces the publication of a revision to the [NFRC 101: Procedure for Determining Thermophysical Properties of Materials for Use in NFRC-Approved Software Programs](#).

### **Item One: NFRC 101<sub>E7A33</sub>**

The revised standard has been published and may be downloaded by clicking on the document name. Non-NFRC members may access the documents by [clicking on this link to the Technical Documents page on the NFRC website](#).

NFRC's thermophysical property peer review group has accepted new materials for inclusion in *NFRC 101, Appendix C-Manufacturer Specific Material Properties*. Additionally, Quanex IG Systems revised two materials in Appendix C, and one new generic material was added into Appendix B (cellular PVC).

The revised thermophysical material properties listing shall be effective immediately and mandatory 30 days after the publication date of the revised appendix. Such changes shall not mandate any revisions to any simulations submitted for certification prior to the mandatory date. This document and its addendum log may be found on the [Technical Documents page](#) of the NFRC website.
