Radical Resilience: Leadership Skills in Changing Times

Radically turbulent times demand professional and personal responses that transcend our regular work and life patterns. It's not about happy faces on mirrors and mantras on coffee mugs. It's not about hanging on while holding back. It's about times when you feel someone ate your cheese, drained the swamp, and went from great to less-than-good. Radical resilience requires the courage to challenge, commit, and contribute in ways that positively impact both today as well as many tomorrows.
