For Immediate Release:

2017 Medicare Rates for NY Psychologists

As a courtesy to NYSPA members, the 2017 Medicare Fee Schedule for Psychologists can be downloaded from the Health Assets website www.healthassets.com. It is located under the forms/resources tab.

You must first look up your Medicare "Area" on the Medicare Area chart located under the same tab. The fees for typical psychology procedure codes (CPT) are itemized for each area.

The fees listed are for outpatient services performed by participating Medicare providers. If a NYSPA member would like to know about fees for Facility based services or for non-participating providers, they may use their annual free consultation with the Health Assets staff to get that information.

As always, NYSPA members are entitled to discounted rates for Health Assets billing, benefit verification and credentialing services, as well as, a free consultation regarding your practice.

Health Assets is proud to be the official Practice Management Company of the New York State Psychological Association.
