Physician Assistants in Orthopaedic Surgery has the reputation for offering the premier event to attend for PAs who practice in orthopaedic surgery. With a proven track record for quality speakers and pertinent topics, this is a CME conference you won't want to miss!

2017 lecture highlights:

- Management of Concussions/TBI and Return to Play Guidelines
- Current Concepts in Medial Patellofemoral Ligament Reconstruction
- Emerging and Controversial Topics in Orthopaedics
- Management of Complex Foot and Lower Extremity Injuries and Indications for Amputation
- Meniscal Transplant: Indications, Technique and Management
- Management of Pediatric ACL Injuries and Graft Selection
- Hand and Wrist Trauma: Early Intervention and Management
- Treatment Options for Glenohumeral Joint Instability with Anterior Glenoid Bone Loss
- Emerging Techniques in Spine Surgery
- Hot Topics in Orthopaedic Reimbursement
- Treatment Options for Failed TKA
- Complex Primary Total Hip Arthroplasty

And many more ...

Many optional workshops to include:

- Bone Health Symposium
- Fracture Fixation Principles
- Casting Clinic
- Graft Preparation
- MSK Ultrasound Guided Injections

23 Category 1 CME Credits (additional credit opportunities available through optional workshops.)
