

## SPOTLIGHT ON EMERGING CONTRACTORS

Servitek, a certified C-10 Electrical Contractor, is a multidisciplinary professional engineering and electric services company founded by Geoff Reyes in 2007. Prior to the founding of Servitek, Geoff Reyes began his career as an Aircraft Electrician with the U.S. Navy and later obtained a Bachelor's of Science in Electric Engineering, followed by a Master's of Science in Engineering Management. With his years of combined experience and education, Mr. Reyes decided to pursue a lifelong passion of owning a company in the field construction and competing as a Prime Contractor.

Since its inception, the firm's goal was to compete as a Prime Contractor. To achieve this goal, Servitek sought technical assistance from the Office of Small and Disadvantaged Business Utilization's (OSDBU) Southwest Region Small Business Transportation Resource Center (SBTRC). After working with the Southwest Region SBTRC through the SFAA/DOT Bonding Education Program, Servitek successfully acquired a \$250,000 line of credit, secured an aggregate bonding level of \$5,000,000 and was awarded an \$821,000 contract as a Prime Contractor.

*The U.S. Department of Transportation's (USDOT), Office of Small and Disadvantaged Business Utilization (OSDBU) is pleased to highlight Servitek Solutions, Inc. (Servitek) and our Southwest Region Small Business Transportation Resource Center (SBTRC).*

*"With the help of the Southwest Region SBTRC I will be able to not only retain my top-notch team, but also expand it, thus providing more job opportunities on our upcoming projects with Caltrans and Palm Springs Airport. I am grateful that the Southwest Region SBTRC was able to help the entire team here at Servitek Solutions Inc." – Geoff Reyes, President & CEO of Servitek Solutions, Inc.*

The California Asian Pacific Chamber of Commerce serves as OSDBU's Southwest Region SBTRC. The SBTRC provides services to small businesses in the transportation industry in the states of California, Arizona, Nevada, and Hawaii.
