

Texas Health Information Management Association Antitrust Statement

The Texas Health Information Management Association is a not-for-profit organization. The association is not organized to and may not play any role in the competitive decisions of its members or their employees, nor in any way restrict competition among members or potential members.

The association provides a forum for exchange of ideas in a variety of settings including its annual meeting, educational programs, committee meetings, and Board meetings. The Board of Directors recognizes the possibility that the Association and its activities could be viewed by some as an opportunity for anti-competitive conduct. Therefore, this policy statement clearly and unequivocally supports the policy of competition served by the antitrust laws and to communicate the Association's uncompromising policy to comply strictly in all respects with those laws.

In order to ensure that the Association and its members comply with antitrust laws, the following principles will be observed:

- The association or any committee, section, chapter, or activity of the Association shall not be used for the purpose of bringing about or attempting to bring about any understanding or agreement, written or oral, formal or informal, expressed or implied, among two or more members or other competitors with regard to prices or terms and conditions of contracts for services or products. Therefore, discussions and exchanges of information about such topics will not be permitted at Association meetings or other activities.

Policy:

- There will be no discussions discouraging or withholding patronage or services from, or encouraging exclusive dealing with any supplier or purchaser or group of suppliers or purchasers of products or services, any actual or potential competitor or group of actual potential competitors, or any private or governmental entity.
- There will be no discussions about allocating or dividing geographic or service markets or customers.
- There will be no discussions about restricting, limiting, prohibiting, or sanctioning advertising or solicitation that is not false, misleading, deceptive, or directly competitive

with Association products or services.

- There will be no discussions about discouraging entry into or competition in any segment of the marketplace.
- There will be no discussions about whether the practices of any member, actual or potential competitor, or other person are unethical or anti-competitive, unless the discussions or complaints follow the prescribed due process provisions of the Association's bylaws.
- Certain activities of the Association and its members are deemed protected from antitrust laws under the First Amendment right to petition government. The antitrust exemption for these activities, referred to as the Noerr-Pennington Doctrine, protects ethical and proper actions or discussions by members designed to influence: 1) legislation at the national, state, or local level; 2) regulatory or policy-making activities (as opposed to commercial activities) of a governmental body; or 3) decisions of judicial bodies. However, the exemption does not protect actions constituting a "sham" to cover anticompetitive conduct.
- Speakers at committees, educational meetings, or other business meetings of the Association shall be informed that they must comply with the Association's antitrust policy in the preparation and the presentation of their remarks.
- Business meetings will follow a written agenda. Minutes will be prepared after the meeting to provide a record of actions taken.

At informal discussions at the site of any Association meeting all participants are expected to observe the same standards of personal conduct as are required of the Association in its compliance.
