

Industry Task and Finish Group

Supplementary Terms of Reference

Remit

To explore approaches for facilitating, promoting and publicising collaborations with industry and small to medium enterprise and medical device companies. To share previous experiences of the benefits and challenges of working with industry. To provide CTUs with a roadmap for interacting with industry, addressing key issues such as industry standards and contractual issues such as IP and publications policy.

Priorities:

- (1) Identify and engage with external industry members
- (2) Produce best practice guide
- (3) Produce roadmap on how to interact with Industry
- (4) Produce list of key contacts
- (5) Produce catalogue of CTUs' areas of interest in working with industry.
- (6) Produce publicity materials describing the mutual benefits of CTU/industry collaboration, with exemplars of successful interactions.
- (7) Organise an open day for Industry and CTUs to interact.

Deliverables:

Each priority is a deliverable.

Timetable:

Working group to run for three years. Initial timelines for deliverables to be agreed at next meeting.
