

Indiana Department of Transportation Communities

Welcome to INDOT's Community. A Community to share information, discuss, and collaborate between INDOT personnel and Consultants utilizing Bentley Products.

Introduction

Computer-aided design (CAD) is the use of computer systems to aid in the creation, modification, analysis, or optimization of design. Due to the fact that there are multiple CAD software products and multiple ways to utilize the products, we are a community that is opened to all inputs from all users.

Purpose

The purpose of the communities' site is to share ideas, have discussions, make suggestions, and network amongst likeminded individuals.

Disclaimer:

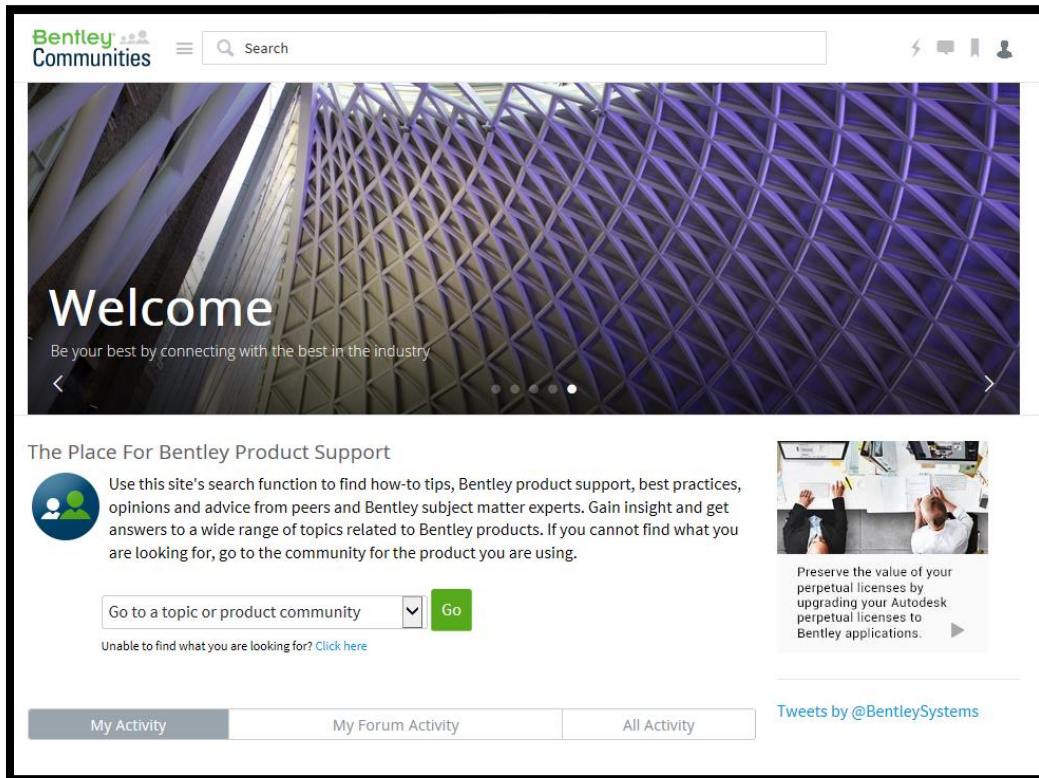

The Communities site is hosted on Bentley's Server. INDOT CAD Support has limited control over the communities' restrictions.

Important: In order to gain access to **Indiana DOT and Consultants**, please make sure you complete the following steps in order:

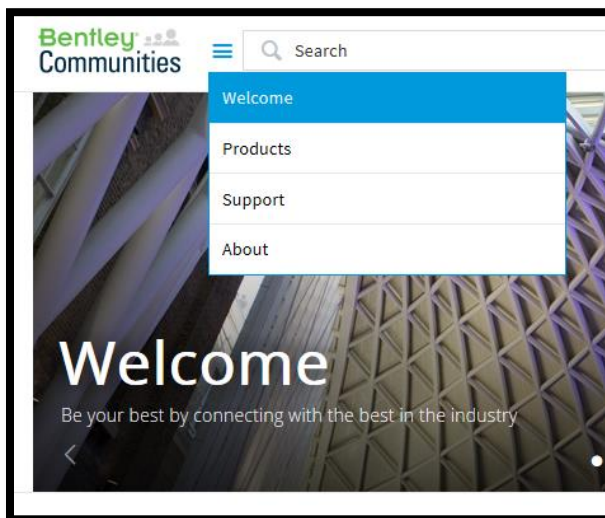

1. You must have a Bentley User Profile (described [here](#))
2. You must be signed in to Bentley Communities (click [here](#) to sign in)

Bookmark the Community:

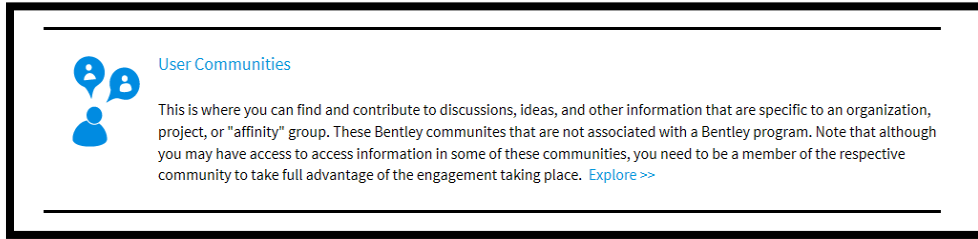

Step 1. Log into Bentley Communities;

Step 2: Hover over the **menu button** and select the **Welcome**;

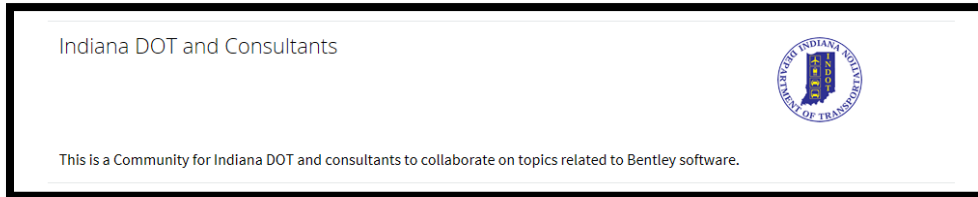

Step 3: Select User Communities;

User Communities

This is where you can find and contribute to discussions, ideas, and other information that are specific to an organization, project, or "affinity" group. These Bentley communities are not associated with a Bentley program. Note that although you may have access to access information in some of these communities, you need to be a member of the respective community to take full advantage of the engagement taking place.
