

# CI2018 Emerging Issues in Cochlear Implantation

SAVE THE DATE  
**MARCH 7-10, 2018**  
**WASHINGTON, DC**

**MARCH 7:** ACI Alliance on the Hill and Preconference Activities

**MARCH 8-10:** CI2018 Emerging Issues Symposium

**LOCATION:** Omni Shoreham

**ORGANIZER:** American Cochlear Implant Alliance

**CI2018**

EMERGING ISSUES

**The CI2018 Emerging Issues Symposium** is a forum for national and global leaders in the field of cochlear implants to come together to share research and best clinical practices on providing hearing restoration to deaf children and adults. The Symposium will feature public policy and advocacy content, including ACI Alliance on the Hill, at which ACI Alliance members will visit Congressional delegations.

This popular format combines panel sessions on key emerging issues in the cochlear implant field plus submitted podium and poster presentations.

Emerging Issues to be explored:

1. Parental Role in Pediatric CI Outcomes
2. Testing Protocols for Cochlear Implant Candidacy
3. Practice Management
4. Quality of Life Outcomes Associated with Cochlear Implantation

**ABSTRACT SUBMISSIONS FOR PODIUM AND POSTER RESEARCH PRESENTATIONS WILL OPEN IN LATE JULY, 2017.**

**STAY CONNECTED!**
