

SCHOLARSHIP  
ALLIANCE

## SCHOLARSHIP APPLICATION

### ACIL Offers Academic Scholarships

As the trade association representing the independent scientific, engineering, and testing laboratories, ACIL member companies provide a wide range of laboratory, testing, R&D, certification and related services to clients in commerce, government and the general public.

Finding and keeping qualified technical personnel is a constant challenge for our industry. To encourage future generations of skilled employees, ACIL, through its affiliated education foundation, the Independent Laboratories Institute, annually offers \$1,000 - \$5,000 academic scholarships to students planning scientific or engineering careers. The children and grandchildren of ACIL member employees are encouraged to apply.

Candidates must be students in their junior year or higher at a four-year, bachelor-degree granting institution or graduate program within the United States, and must also major in the physical sciences practiced by ACIL members: physics, chemistry, engineering, geology, biology or environmental science.

Scholarship awards are based on the applicant's academic achievement, career goals, leadership and financial need. Completed applications must be received in the ACIL office between February 1 – April 7, 2017 (preferably in hard copy format). Recipients are selected by ACIL's Scholarship Alliance Committee and will be notified by July 3, 2017 (recipients will also be posted on the website at that time). Award monies will be sent directly to the school, not to individuals.

### SCHOLARSHIP APPLICATION (DEADLINE: April 7, 2017)
