STATE OF THE ASSOCIATION: ON THE ROAD OF SUSTAINABLE GROWTH

WELCOME TO PORTLAND

Each year, ACSP works to create new and relevant ways for our membership to connect, learn, and grow. This year has been a road of change, which I hope has set us on a path of sustainable growth.

We encourage you to participate in our new web-based platforms, which we believe will facilitate engagement with your colleagues as well as with the ACSP officers and Governing Board. I look forward to connecting with you and hope this year’s 56th Annual Conference provides you with many learning and networking opportunities.

Lois M. Takahashi, UCLA
ACSP President 2015-2017

ENGAGING & CONNECTING

As a value-of-membership, the new ACSP website helps members connect with each other and provides relevant information. Here’s a quick look at what you can do on the new site:

- Planning News: faculty announcements, awards, school news, new initiatives, events, and more, we help you promote it.
- Career Center: university/program members are able to post job openings and job-seekers can find employment.
- Community Forum: designed to facilitate critical conversations that value productive debate about our work and impact.
  *(Calls for papers, job opportunities, and events will be referred to Planning News.)*
- Weekly eNews: distributed every Friday with a snapshot of news, forum topics, events, and more.
- Academic Planner Profiles: featuring individuals on a monthly basis in our Featured Faculty, Student Spotlight, & Active Alum columns.
- Planning Blogs: coming soon!

Website User Engagement

- Conference Homepage: 2nd Only to the ACSP Homepage
- Most Read News: Article in September: FWIG Call for CVs
- More Than 50% of Career Center Jobs Were Posted in Last 45 Days
- ACSP Has Grown More Than 35% Over the 9 Months with More Than 2,300 Active Accounts

INTRODUCING THE NEW ACSP LOGO

The ACSP has a new logo! What you might not know is that it took more than a year of design and collaborative decision-making to make it happen. The earthy colors, street grid, and profile of a person within it visually creates a connection map between cities/regions and the people who study and plan them.

ACSP

GRADUALLY GOING GREEN: BYE-BYE PRINT PROGRAM

The ACSP has seen significant changes over the last year. We now have a powerful website with tools and options that will grow with us – and help us grow at the same time.

As ACSP grows, the conference inherently grows, and we have looked for ways to offer conference information via a user-friendly platform that supports an eco-friendly environment – the conference app. This app is web and mobile-friendly and is free to all attendees. You can find information on how to download and use the app on a flyer in the conference folder. As we begin to phase out the print program altogether, a small fee was required if you opted for a printed copy. This year’s print program is also reduced in size from previous years. Next year we will offer another significantly reduced print version that will only provide an abbreviated schedule of sessions. We will only offer the conference app for Buffalo in 2018.
This conference theme considers the role played by academic urban planning programs in practice and in place. Urban planning is unique and important because as a field it grapples with the study of real problems in real places; professional degree programs train those who will not only study but act. At the 2016 conference, participants will be especially encouraged to reflect on the relationships of planning programs with practice and/or place and how our pedagogy engages these relationships. We encourage participants to engage with challenging questions for our field and our departments, to dialogue with one another and to bring additional voices into the room—practitioners, community members, and students. We see the conference—the key gathering of planning academics in conversation—as an opportunity to build the conversations about what urban planning in the academy is and means, how it is important to universities, and what it means to the places we inhabit and serve. Some areas to explore include:

- **SCHOLARSHIP** - Planning research is often applied, place-based, and ‘just-in-time’ based on unfolding events. Is this kind of research a competitive advantage for planning as compared to the traditional social science disciplines? How are planning scholars making the knowledge from this kind of research useful for practitioners as well as introducing it into the scholarly literature on relevant issues?

- **PEDAGOGY** - While some disciplines are just now exploring the concept, community-engaged teaching and learning have been a long tradition in planning departments using studio and project courses to educate professionals. What pedagogies are planning programs articulating for community-engaged teaching? How are planning programs working effectively with communities in authentic, non-exploitive ways that produce real benefit? What can planning programs do to model this for our universities?

- **PLANNERS, PRACTITIONERS** - Being engaged scholars, working with practitioners and studying practice are critical to teaching future professional planners. How do planning programs reflect practice in our pedagogy? How do we adapt the teaching of planning to reflect current and anticipated needs for new skills and knowledge? What mechanisms do we use to respond to practitioner needs and address perceived rifts between academic and practicing planners?

- **IMPACT** - Measuring the impact of our programs is becoming increasingly important in our own universities and in (re) accreditation. How can we gauge the extent to which university planning programs affect practice? How can we assess planning schools’ contributions beyond our scholarship, through engagement and the activities of our alumni?

WELCOME FROM THE LOCAL HOSTS

Colleagues and Friends,

On behalf of the Toulan School of Urban Studies and Planning at Portland State University and the Department of Planning, Public Policy, and Management at the University of Oregon, we invite and welcome you to Portland for the 56th Annual Conference of the ACSP!

Planners know Portland for its unique elected regional government and urban growth boundary. Readers of the New York Times know Portland for its new restaurants, bicycles, and artisanal…well, artisanal everything. And, of course, the TV show Portlandia gifted us with the catchphrase, “put a bird on it.” Portland’s bustling downtown and waterfront and lively neighborhood commercial districts (connected by transit!) and the nearby natural beauty of the Columbia River Gorge and Mt. Hood (protected by the state land use planning system!) make it a fantastic location to host a conference of urban planners.

As conference hosts who live in, work in, and love this city, we aim to show you more. Portland is where we study and teach, hoping to have positive impacts on the city, region, and state through engaged scholarship, a pedagogy of practice, and our own civic participation. Our local host sessions at the conference will share research about the opportunities and challenges of the statewide planning systems in Oregon and Washington; discuss lessons from PSU’s and UO’s unique approaches to teaching the practice of planning in our Master degree programs; and present engaged scholarship about Portland’s affordable housing emergency that raises questions about what a sustainable city really means.

Through mobile workshops, you’ll have the opportunity to see the evolution of Portland’s vaunted bikeways, transit system, and green infrastructure. Or, enjoy an early happy hour and walkable street life at urban breweries or a food cart pod! You can also explore the challenges of environmental justice, equity, and neighborhood transformations that are equally an important part of the Portland story. Don’t find an official mobile tour that excites you? Portland’s internet community will likely have something to meet your interests!

We are especially excited about the keynote speaker, Rick Lowe, of Project Rowhouses in Houston, Texas, an artist and MacArthur-awarded genius. Project Rowhouses has transformed a neighborhood through the celebration of African-American art and culture in the context of community development and affordable housing innovations. Its current challenges with potential gentrification and maintaining a voice for residents in redevelopment resonate for us here in Portland, and for many cities. After the keynote address, join us by transit, bike share, or walking across the car-free Tillikum Crossing to the Oregon Museum of Science and Industry, our beautiful reception site. The reception site is located in Portland’s eastside industrial district. Following the reception, enjoy exploring yet another perspective of Portlandia at new restaurants and bars filling up old industrial spaces.

We are excited to meet with all of you again, or for the first time—and a special welcome to new students and junior colleagues joining the conversation at ACSP!

And, yes, you should probably have brought an umbrella.

4 - 56th ANNUAL CONFERENCE
LOCAL HOST SESSIONS

Thursday, 1:00pm – 2:30pm
LOCAL HOST SESSION 1
MORE THAN A ONE-OFF: CLASSROOMS MOVING OREGON COMMUNITIES FORWARD
Room: Broadway III

Oregon has a rich tradition of public engagement, policy and land use innovation, and relatively flat hierarchies that allow for idea and knowledge exchange. The planning programs of the University of Oregon and Portland State very much operate within similar contexts and this local session will showcase three different ways that classroom learning is applied to real Oregon community needs in ways that are catalytic for community practice. While most planning programs across the country engage in some practice-based approaches, these highlighted programs offer unique structures that often lead to more impactful and sustainable impact for communities, while providing rich educational and workforce development experiences for students.

Moderator: SCHLOSSBERG, Marc [University of Oregon] schlossb@uoregon.edu

Participants:
BANKS, Megan [University of Oregon Sustainable City Year Program]
PARKER, Robert [University of Oregon] rgpp@uoregon.edu
ADLER, Sy [Portland State University] adlers@pdx.edu
KNOW-BUSCH, Courtney [City of Salem]

Friday, 8:00am – 9:30am
LOCAL HOST SESSION 2
HOUSING SOS? CAN ANYBODY HEAR ME?
Room: Parlor B

Several West Coast cities declared “emergency” states of homelessness and housing during 2015, affording them increased flexibility and authority to address these crises. Scholars and community advocates discuss the meaning of Portland’s “housing emergency”, which was recently extended until September 2017. Panelists will share their experiences with community-engaged and applied research that is helping to define the problems and develop new policy approaches.

Participants:
BATES, Lisa [Portland State University] lkbates@pdx.edu
GEBHARDT, Matthew [Portland State University] mfg@pdx.edu
ZAPATA, Marisa [Portland State University] mazapata@pdx.edu
and Community Partners

Saturday, 8:00am – 9:15am
LOCAL HOST SESSION 3
PULLING BACK THE CURTAIN ON STATEWIDE PLANNING IN OREGON AND WASHINGTON: EMERGING STATEWIDE CHALLENGES
Room: Galleria I

Oregon and Washington are known for groundbreaking policies on statewide planning and land use. These northwest states have state-level planning programs dating back several decades, though research on the long-term impact of the statewide programs in both states has been sparse. This session will highlight experiences from the Oregon and Washington statewide land use planning programs. It will focus on challenges with the implementation of statewide programs—affordable housing, urban growth boundary amendments, farmland conservation, and natural hazards.

Participants:
LEWIS, Rebecca [University of Oregon] rlewis9@uoregon.edu
MACLAREN, Carrie [Department of Land Conservation and Development] invited
MOORE, Terry [EcoNorthwest] invited

TOULAN SCHOOL OF URBAN STUDIES AND PLANNING, PORTLAND STATE UNIVERSITY

The mission of Toulan School of Urban Studies and Planning at Portland State University is to assist in the development of healthy communities through an interdisciplinary program of teaching, research and public service. Faculty and students engage the intellectual, policy and practice aspects of urban studies and planning from the local to the international levels and actively participate in the analysis, development and dissemination of the innovations for which Portland and the Pacific Northwest are known. The School’s degree programs focus on understanding metropolitan regions and their problems, and analyzing policies to shape their evolution and overcome obstacles. The School offers a PhD in Urban Studies; Masters degrees in Urban Studies, Urban and Regional Planning, and Real Estate Development; and a BA in Community Development. The MURP program enables students to be reflective, to build practical judgment and adaptive problem-solving skills through direct engagement with contemporary planning issues and practice. Our faculty and students actively participate in the development and dissemination of innovations in planning that advance our understanding of what planning is, how planning is practiced and taught, and why planning matters in the world. The MURP program embodies PSU’s motto to “let knowledge serve the city.”

DEPARTMENT OF PLANNING, PUBLIC POLICY, AND MANAGEMENT, UNIVERSITY OF OREGON

The Department of Planning, Public Policy and Management (PPPM) at the University of Oregon is concerned with the ways government, nonprofit organizations, and other sectors address some of the most important problems facing society today. The Department offers Masters degrees in Community and Regional Planning, Public Administration and Nonprofit Management, as well as an undergraduate major and minor. The planning program is known for its deeply experiential learning program. For over 40 years, Community Planning Workshop has been conducting real world planning projects for urban and rural communities. The award winning Sustainable Cities Initiative has partnered with cities to engage students from across the University in real world issues and problems. Faculty research focuses on issues such as: engaging underrepresented communities, collaborative governance, alternative transportation, urban form and transportation, and land use and growth management.

OPENING RECEPTION
Thursday, 7:30pm – 9:30pm  (Tickets are required!)

OMSI, THE OREGON MUSEUM OF SCIENCE AND INDUSTRY
OMSI began with the exhibition of Oregon’s rich natural resources with the opening of the City Hall Museum in 1896. But with the Great Depression and World War II, it wasn’t until the mid-forties that support for the museum really began to grow. Businessman Ralph Lloyd hosted the temporary “Oregon Museum of Science and Industry” in his house on NE Hassalo Street, boasting the Northwest’s first public planetarium and its 20-minute trip to the stars.

With annual attendance swelling to over 25,000 in 1955 and the house scheduled for demolition, the City Council stepped forward to lease land in Washington Park to OMSI for the sum of one dollar per year. In the spirit of pioneer barn-raising, over 400 volunteer union bricklayers and hod carriers laid 102,000 bricks in one day, and on June 7, 1958, the dream of a dedicated, hands-on science museum became a reality.

By the mid-1980’s, OMSI’s popularity surpassed the size of its facility six times over and a new group of community leaders began a $32M campaign to build a state-of-the-art science center, culminating with a milestone donation from longtime supporter, Portland General Electric, of an 18.5-acre site that held a historic sawdust-fired power generation plant. On October 24, 1992, the new 219,000 square-foot facilities opened, adding the USS Blueback, the last non-nuclear powered submarine built by the U.S. Navy, just two years later.

Today, the museum serves over 1 million visitors at the museum and through off-site education programs. OMSI is ranked as one of the top science centers in the United States and has an international reputation for its innovative exhibits and educational programs.

Directions to OMSI: Public transportation required. See your printed ticket for Tri-Met information. You should have a Tri-Met pass in your registration kit. Don’t forget to bring it with you!

STUDENT RECEPTION
Saturday, November 5, 7:30pm – 9:30pm  (No tickets required. Please wear your name badge!)

Join fellow students for a lively reception at the Rock Bottom Brewery. Rock Bottom Portland sits in the middle of downtown, offering a selection of clean, simple, surprising craft beer brewed in-house by Brewmaster and self-proclaimed Pale Ale devotee, Charlie Hutchins. Pair one of his signature brews with great food from the recently refreshed made-from-scratch menu for an evening of networking and fun!

Directions to Rock Bottom Brewery: From the Hilton, walk North three blocks toward SW Morrison Street. Head east three blocks on SW Morrison. The brewery is located on the corner of SW Second and SW Morrison at 206 SW Morrison Street.
PLENARY ASSEMBLIES & KEYNOTE SPEAKERS

STUDENT AWARD PRESENTATIONS & KEYNOTE SPEAKER RICK LOWE, PROJECT ROWE HOUSES
Thursday, 4:15pm – 5:30pm
Room: Grand Ballroom

Rick Lowe is an artist whose unconventional approach to community revitalization has transformed a long-neglected neighborhood in Houston into a visionary public art project that continues to evolve, two decades since its inception. Originally trained as a painter, Lowe shifted the focus of his artistic practice in the early 1990s in order to address more directly the pressing social, economic, and cultural needs of his community. With a group of fellow artists, he organized the purchase and restoration of a block and a half of derelict properties—twenty-two shotgun houses from the 1930s—in Houston's predominantly African American Third Ward and turned them into Project Row Houses (PRH), an unusual amalgam of arts venue and community support center.

Since its founding in 1993, PRH has served as a vital anchor for what had been a fast-eroding neighborhood, providing arts education programs for youth, exhibition spaces and studio residencies for emerging and established artists, a residential mentorship program for young mothers, an organic gardening program, and an incubator for historically appropriate designs for low-income housing on land surrounding the original row houses. While inviting constant collaboration with local residents, artists, church groups, architects, and urban planners, Lowe continues to provide the guiding vision for PRH as he pursues his overarching goal of animating the assets of a place and the creativity of its people. He is not only bringing visibility and pride to the Third Ward by celebrating the beauty of its iconic shotgun houses; he is also changing the lives of many PRH program graduates and expanding the PRH campus to cover a six-block area in an effort to preserve the historic district’s character in the face of encroaching gentrification.

Lowe has initiated similarly arts-driven redevelopment projects in other cities, including the Watts House Project in Los Angeles, a post-Katrina rebuilding effort in New Orleans, and, most recently, a vibrant community market in a densely populated, immigrant neighborhood in North Dallas. Lowe's pioneering "social sculptures" have inspired a generation of artists to explore more socially engaged forms of art-making in communities across the country.

FACULTY AWARDS CEREMONY & KEYNOTE SPEAKER WIM WIEWEL, PRESIDENT, PORTLAND STATE UNIVERSITY
Saturday, November 5, 9:30am – 10:15am
Room: Grand Ballroom

Wim Wiewel assumed the presidency of Portland State University in August 2008. Under his leadership, the University pursues five strategic goals: Elevate student success; advance excellence in teaching and research; extend PSU's leadership in community engagement; expand PSU's commitment to equity; and innovate for long-term stability. The University has also focused on sustainability, and has undertaken $700 million in renovation and new construction.

Prior to coming to PSU, Wiewel was the provost and senior vice president of Academic Affairs at the University of Baltimore. From 1979-2004, Wiewel was with the University of Illinois at Chicago (UIC), where served as dean of the College of Business Administration and the College of Urban Planning and Public Affairs. He holds degrees in sociology and urban planning from the University of Amsterdam in the Netherlands, and a Ph.D. in Sociology from Northwestern University.

Wiewel has authored or edited nine books and more than 65 articles and chapters that have appeared in publications and journals, including Economic Development Quarterly, Economic Geography and the Journal of the American Planning Association. His most recent books are Global Universities and Urban Development, The University as Urban Developer and Suburban Sprawl.

He served as president of the ACSP from 2001-2003.
NYU WAGNER

Located in the heart of New York City, NYU Wagner’s Master of Urban Planning program prepares students to address critical urban challenges. The faculty are at the forefront of vital issues and debates about the future of global cities and the solutions required to ensure that they remain livable, sustainable, and inclusive.

LEADING FACULTY RESEARCH

HILARY BALLOn will launch New York at Its Core, as co-curator of the new, permanent exhibit at the Museum of the City of New York.

JACOB W. FABER is researching the ways segregation of opportunity shapes racial inequalities in America, including policing, the lasting consequences of the Great Recession, and discrimination in economic markets.

ZHAN GUO is "redesigning" the Washington, DC’s metro map to mitigate bottleneck congestion. He is also working with the World Bank to develop a parking strategy for Beijing’s municipal government.

NATASHA ISKANDER is currently completing a book based on a multi-national ethnography of migrant workers in Qatar’s construction industry in the lead-up to the 2022 World Cup.

MITCHELL L. MOSS, Director of NYU Wagner’s Rudin Center for Transportation, led the Center’s release of several cutting-edge research reports on Downtown Brooklyn, the World Trade Center recovery, and the L Train closure.

RAE ZIMMERMAN, Director of NYU Wagner’s Institute for Civil Infrastructure Systems, is analyzing interconnections among urban infrastructure services and their effect on resilience. She was also recently appointed to the New York City Panel on Climate Change.

NYU WAGNER @ ACSP

NYU Wagner will be presenting at this year’s conference on a wide range of global urban planning issues:

SEWIN CHAN • ZHAN GUO
NATASHA ISKANDER • PAUL SMOKE
RAE ZIMMERMAN • FEI LI (PhD candidate)

ASSISTANT PROFESSOR POSITION IN URBAN PLANNING

We are currently recruiting for a tenure-track assistant professor position in urban planning. Candidates should have expertise and a record of research in urban planning, environmental planning and ecosystems management, geography, public policy, political science, sociology, or economics.
CAREER CENTER
Room: Pavilion Ballroom

Laptops will be available for you with WiFi access at the ACSP Career Center table along with savvy student volunteers and also our very own Mary Beth Buchanan, ACSP staff charged with managing the Career Center. They will help you post jobs, search for jobs, post your resume and search for resumes.

COMMUNITY CENTER
Room: Pavilion Ballroom

What was once known as the Book Fair at the ACSP Annual Conference has grown into so much more than just books! It’s where you first check-in at conference registration and get assistance from ACSP staff. It’s where you’ll have daily breakfast and all-day coffee. It’s a comfortable place to meet with friends and colleagues, not to mention a great place to shop for books of course, and to meet our sponsors at their own exhibits.

2016 ACSP AWARDS

Each year ACSP is proud to honor faculty and students who have distinguished themselves or made major contributions to the academy or to the profession via outreach efforts, public service or for service to ACSP, the Academy, or the profession. A complete listing and history for all awards can be found at www.acsp.org. Faculty awards are presented at the Saturday morning plenary, 9:30am in the Grand Ballroom.

ACSP JOHN FRIEDMANN BOOK AWARD

John Friedmann is a widely-recognized planning scholar with an exceptionally distinguished career. He has contributed in many ways to the field of urban and regional planning, through his writings on planning theory, regional development planning, and world cities. He is the author of 26 books and close to 200 articles, and has received many distinguished awards (see below). He has also offered unstinting service to the planning academy, both through his varied teaching career and through his co-sponsorship of activities designed to support doctoral students in planning.

The Association of Collegiate Schools of Planning (ACSP) established the John Friedmann Book Award in 2013. This award is presented to a book or comparable work that best exemplifies scholarship in the area of planning for sustainable development.

Winner:
Zoned in the USA: The Origins and Implications of American Land-Use Regulation
Cornell University Press
Authored by Sonia Hirt, University of Maryland College Park

The awards committee found Hirt’s book to be a delightful and rare combination of excellent planning history, insightful critique, and a witty, engaging read. We all thought we knew the history of American zoning, but Hirt reexamines the history from a fresh, perceptive and comparative stance that perhaps only someone not originally from the US can provide. She challenges conventional thinking by exposing the American penchant for individualism yet strong reliance on land use regulation. Hirt both recounts the origins of a peculiarly American form of land use control and also pushes against the prevailing assumption of zoning as a simple outcome of “American exceptionalism.” Richly documented and fluidly interweaving the practical and the theoretical, Hirt has written a compelling retort to the claim that American zoning is too tedious, bureaucratic, scientific or self-evident to be worth our attention. Her book provides a coherent and sustained narrative that not only makes planning scholarship accessible to a broad audience, but also reveals the insidious use of zoning as a tool of racism and classism. Hirt’s excellent research offers an important and often-overlooked lesson: to fundamentally address the social inequalities, environmental ills and odd design quirks of the American landscape, we should not overlook reforming the structure and core values embedded in zoning codes. It’s an overused truism, but this well-written and wry book does indeed deserve to be on planners’ bookshelves and on students’ reading lists.

Honorable Mention:
Saving Our Cities: A Progressive Plan to Transform Urban America
Cornell University Press
Authored by William Goldsmith, Cornell University

Goldsmith has written a timely, penetrating assessment of contemporary urban America: a book whose title is an ambitious agenda. Goldsmith takes on the core challenges of the contemporary American city: concentrated poverty, racism, struggling schools, drugs, unhealthy food networks and paltry public services that exacerbate social inequality. He offers a searing indictment of the broader anti-urban state and federal political culture that imposes crippling austerity and incarceration programs on city residents. He not only offers systemic analysis, but also develops substantive policy reforms that you might agree or disagree with but can’t ignore. It is a convincing argument about the complexity of urban politics and the need for upstream policies to realize more progressive urban futures. The book both befits the spirit of the Friedmann Award and challenges the planning field to not lose sight of its pressing agenda.

The 2016 John Friedmann Book Award Committee includes: Committee Chair Scott Campbell, University of Michigan; Julian Agyeman, Tufts University; Phil Berke, Texas A&M University; Anne Forsyth, Harvard University; and Andrew Karvonen, University of Manchester.

2016 ACSP AWARDS

ACSP/FWIG MARGARITA MCCOY AWARD

The Margarita McCoy Award is given biannually in even years by the ACSP Faculty Women's Interest Group and recognizes individuals who have made an outstanding contribution toward the advancement of women in planning at institutions of higher education through service, teaching, and/or research.

Winner:
Lisa Ann Schweitzer, University of Southern California

The 2016 selection committee chose Professor Lisa Schweitzer from a field of impressive candidates because of her clear contributions to the advancement of women in planning in the teaching, research, and service categories. As one member observed, "To have such impact in each category suggests that Lisa Schweitzer embodies the role as champion and advocate for women in planning." The committee also commended her for being a model for women in the planning academy, for her leadership in FWIG, and for her dedication to advancing women through her teaching.

The 2016 Margarita McCoy Award Committee includes: Committee Chair Kathryn Quick, University of Minnesota; Meghan Gough, Virginia Commonwealth University; Sandi Rosenbloom, University of Texas Austin; and Patricia Pollak, Cornell University.

ACSP JAY CHATTERJEE DISTINGUISHED SERVICE AWARD

This award is presented in even numbered years and recognizes an individual faculty whose exceptional service, actions and leadership have had a lasting and positive impact on ACSP and its member schools.

Winner:
June M. Thomas, University of Michigan

June Manning Thomas, Ph.D., FAICP, is Centennial Professor of Urban and Regional Planning at the University of Michigan Taubman College of Architecture and Urban Planning. She was named the Mary Frances Berry Distinguished University Professor, effective September 1, 2016.

In 2003 she was inducted as a Fellow in the American Institute of Certified Planners. She was President of the Association of Collegiate Schools of Planning (2013-15), and now serves as Immediate Past President (2015-16).

Her books include the co-edited Urban Planning and the African American Community: In the Shadows (Sage, 1996); Redevelopment and Race: Planning a Finer City in Postwar Detroit (Johns Hopkins University Press, 1997, second edition Wayne State University Press, 2013); Planning Progress: Lessons from Shoghi Effendi (Association for Baha'i Studies, 1999); the co-edited, Margaret Dewar and June Thomas, The City after Abandonment (University of Pennsylvania Press, 2013), and the co-edited, June Thomas and Henco Bekkering, Mapping Detroit: Evolving Land Use Patterns and Connections (Wayne State University Press, 2015). Thomas writes about diversification of the planning profession, planning history, and social equity in neighborhoods and urban revitalization. Recent research explored the relationship between the concept of social equity and the civil rights movement, and examined the land-use reactions of community organizations to vacant land in Detroit.

She is the recipient of the Association of Collegiate Schools of Planning 1999 Paul Davidoff Award for her book Redevelopment and Race. She previously was a professor at Michigan State University, where she developed statewide initiatives to link urban planning services on campus with community development needs in Michigan cities. She and her husband are active members of the Bahá'í Faith, a belief system which has fueled their professional interests in promoting racial and international unity.

The 2016 Jay Chatterjee Award Committee includes: Committee Chair Sanda Kaufman, Cleveland State University; Charles Connerly, University of Iowa; Donald Miller, University of Washington; Mai Nguyen, University of North Carolina at Chapel Hill.
2016 ACSP AWARDS

ACSP/UIUC CHESTER RAPKIN AWARD FOR THE BEST ARTICLE IN JPER THIS YEAR

The winner of this year’s Chester Rapkin Award will be announced at the conference.

The Chester Rapkin Award for the Best Paper in the Journal of Planning Education and Research is awarded annually. This award is generously supported by an endowment at the University of Illinois Foundation in Urbana. The award was founded for JPER of ACSP by the co-editors, Lew Hopkins and Gill-Chin Lim, in honor of Professor Rapkin at his retirement. As a distinguished educator, he mentored 70 doctoral and numerous master students at the University of Pennsylvania, Columbia and Princeton. As a pioneering researcher, Professor Rapkin authored 15 books and monographs and more than 100 professional articles, plans and reports. He was the Executive Director of the White House task force that proposed the Model Cities Program under President Lindon B. Johnson. From 1969 to 1977 he served on the New York City Planning Commission under Mayors John Lindsay and Abraham Beame.

The 2016 Chester Rapkin Award Committee includes: Committee Chair Richard Klosterman, Emeritus University of Akron; Justin Hollander, Tufts University; and Branden Born, University of Washington.

2016 ACSP AWARDS

POCIG EDWARD BLAKELY AWARD
This achievement award will be given to a worthy honoree who has supported the cause of social justice, particularly in urban planning or development, for communities of color. It is in honor of Edward Blakely, who has offered extraordinary service as both scholar and practitioner following examples from his family, including in particular his father Edward Blakely, his mother Josephine Carter Blakely, and all of his uncles and aunts and cousins who lived and worked for social justice in communities of color, particularly during the years of legally-enforced racial segregation.

Winner:
Alvaro Huerta, California State Polytechnic University, Pomona

Alvaro Huerta is “an exceptional individual,” one of his recommenders wrote. The recommender continues, “I believe he meets and exceeds the criteria of the Blakeley award.” His accomplishments are encyclopedic.

In keeping with the ideals of the Blakely Award and POCIG, Prof. Huerta has been an unrelenting advocate for diversity in the field of urban planning. He encourages young people of color, especially from working class backgrounds to pursue advanced degrees to become urban planners. One of his recommenders described Prof. Huerta as “one of the most vocal figures who has challenged racist and sexist posts and actions on PLANET and other forums.”

His prodigious efforts and dedication have been recognized. He has been the recipient of the Ford Foundation Diversity Pre-doctoral Fellowship; Frederick A. Cervantes Graduate Student Premio: Best Graduate Student Paper, National Association for Chicana and Chicano Studies; and the Planning Leadership Award—Advancing Diversity and Social Change in Honor of Paul Davidoff from the American Planning Association.

All of his recommenders mentioned his humble beginnings. Growing up poor, he spent his first four years in a Tijuana slum and afterwards in an East Los Angeles housing project. Yet, Huerta has not only persevered but excelled. As mentioned, he has done distinguished work for an assistant professor. Also unlike previous Blakely awardees from R1 research institutions, he has been committed to scholarship, the classroom, and grassroots activism while brilliantly balancing a teaching university's requirements. He is truly deserving of the Blakeley award. He has made a huge contribution to the field of urban planning and the wider community.

The 2016 Ed Blakeley Award Committee includes: Committee Chair Marisa Zapata, Portland State University; Talya Thomas, Jackson State University; Annette Kim, University of Southern California; Allie Thomas, university.

ACSP STUDENT PAPER AWARDS
Student awards are presented at the Plenary Assembly, Thursday, 4:15pm. Winners are asked to present their papers at the Student Award Paper Session scheduled this year for Saturday, November 5, 8:00am – 9:30am. ACSP awards the following prizes for papers prepared as part of research projects and academic studies.

ACSP ED MCCLURE AWARD FOR THE BEST MASTERS STUDENT PAPER
Post-Island Futures: Seeding Territory for Tuvalu’s Fluid Atolls
Elizabeth Reed Yarina, Massachusetts Institute of Technology

The Ed McClure Award recognizes superior scholarship in a paper prepared by a masters student in an ACSP-member school. Submissions may address any topic of investigation generated in the course of pursuing a master's degree in urban/city/community/town/regional planning.

The Edward McClure Award winning entry this year considers an interesting topic in a thoughtful and pragmatic manner. The situation of international refugees in Nauru involves many issues important to planning, including poverty; migration, displacement, and social vulnerability; international relations; the built environment, environmental degradation; and the impacts of climate change. (We might note that Nauru has since received more attention from major media outlets, such as National Public Radio.) Yarina’s clear writing and careful approach, emphasizing spatial and architectural perspectives, capably support her evaluation of extensive empirical information to generate insights with the potential to guide local action.

Lizzie Yarina recently completed a joint Masters of Architecture and Masters of City Planning at MIT, with her thesis entitled “Post-Island Futures: Seeding Territory for Tuvalu’s Fluid Atolls.” She also holds a Bachelor of Science in Architecture from the University of Michigan, and was raised in Michigan’s Upper Peninsula. Lizzie’s research explores the role of design thinking in political and territorial issues, with a particular focus on climate change and natural resources. She is also a design researcher in the MIT Urban Risk Lab. During the 2016-17 year, Lizzie will serve as an MIT-SUTD teaching and research fellow, and she
ACSP STUDENT PAPER AWARDS

will begin a Fulbright research fellowship in New Zealand in the spring of 2017 on the spatial implications of climate change migration on New Zealand cities.

The 2016 Ed McClure Award Committee includes: Committee Chair Josh Drucker, University of Illinois at Chicago; Bryce Lowery, University of Oklahoma; and Chris Tilly, University of California, Los Angeles.

FWIG/ACSP MARSHA RITZDORF AWARD FOR THE BEST STUDENT WORK ON DIVERSITY, SOCIAL JUSTICE AND THE ROLE OF WOMEN IN PLANNING

Equity in the Time of Precarity: Inclusive Local Economy Projects in Toronto’s Neighbourhood Improvement Areas
Mercedes Sharpe Zayas, University of Toronto

This award is named after Marsha Ritzdorf, who was a stalwart champion of social justice and did path-breaking research on the relationship between zoning regulation and the suppression of women and non-traditional families. This award recognizes superior scholarship reflecting concern with making communities better for women, people of color and/or the disadvantaged. Submissions may be based on student work submitted in the pursuit of any urban/city/community/town/ regional planning degree, undergraduate or graduate, at an ACSP-member school.

A committee of five faculty members from the Faculty Women’s Interest Group (FWIG) selected Mercedes Sharpe-Zayas from a competitive field of candidates, in recognition of the critical questions, thoughtful analysis, and compelling presentation of arguments and suggestions that she made in her thesis, titled “Equity in the Time of Precarity: Inclusive Local Economy Projects in Toronto’s Neighbourhood Improvement Areas.”

The 2016 Marsha Ritzdorf Award Committee includes: Committee Chair Kathryn Quick, University of Minnesota; Kristen Crossney, West Chester University; Orly Linovski, University of Manitoba; Lynn McCormick, Hunter College; Rosie Tighe, Cleveland State University; Yiping Fang, Portland State University.

ACSP/MIT DON SCHÖN AWARD FOR EXCELLENCE IN LEARNING FROM PRACTICE

Drawing Outside the Lines: Participatory Design in Unincorporated Communities
Lillian Jacobson, Massachusetts Institute of Technology

Lillian Jacobson submitted her Master's thesis in 2015 (a year in which no award was given), under the supervision of Jota Samper. The thesis is entitled, “Drawing Outside the Lines: Participatory Design in Unincorporated Communities.” It chronicles and analyses Lillian’s collaboration with high-school students from a marginalized community in Santa Rose, California. In a note to the committee after being notified of her award, Lillian wrote that her work with young people had “expanded [her] understanding of true community-based design . . . and taught [her] the power young voices can have in planning the future of our cities.” Her thesis documents her successful attempts to elicit reflection-in-action and reflection-on-action among high-school students and shows her own reflection on that experience.

Manitoba Relationship Stories: When First Nations and Local Governments Plan Together
Madeleine Koch, University of Manitoba

Madeleine Koch wrote her master's thesis in 2016, under the supervision of Janice Barry. Entitled “Manitoba Relationship Stories: When First Nations and Local Governments Plan Together,” the thesis follows Don Schön's lead in studying the lived experience of practitioners and in bringing them to reflect on their practice. As Madeline wrote to the award committee, “intergovernmental planning [between First Nations and municipal or regional agencies] can be highly political and complex”; inducing practitioners, including members of First Nations, to tell “practice stories” from the field helps them, and helps the researcher, understand the challenges they face and the strategies they can adopt to meet those challenges.

The 2016 Donald A. Schön Award Committee includes: Committee Chair Raphaël Fischler, McGill University; Robert Goodspeed, University of Michigan; Langley Keyes, Massachusetts Institute of Technology; Sarah Kuhn, University of Massachusetts; Jonathan Richmond, independent scholar; and Elizabeth Schön Vanier.
ACSP STUDENT PAPER AWARDS

ACSP/CORNELL UNIVERSITY BARCLAY GIBBS JONES AWARD FOR THE BEST DISSERTATION IN PLANNING

Leveraging Organizational Dynamics in Buildings to Change Behavior
Elizabeth Hewitt, Stony Brook University

This award recognizes superior scholarship in a doctoral dissertation completed by a student enrolled in an ACSP-member school. The committee seeks a thesis that is original, well written, employs methods elegantly, offers lessons pertinent to central issues in the field of planning, and provides guidance about how planners or governments should make choices. This award is generously funded on an annual basis by Cornell University.

The committee was especially impressed by Elizabeth's novel organizational approach to understanding the energy efficiency of buildings, her adoption of a wide range of methods, and use of an instructive new data source. Her research has the potential to significantly shape the field of environmental planning.

The 2016 Barclay Gibbs Jones Award Committee includes: Committee Chair Rachel Weber, University of Illinois at Chicago; Gwen Urey, California State Polytechnic University, Pomona; Charles Jennings, John Jay College; and Doug Lee, independent scholar.

IACP/ACSP KAREN POLENSKE BEST STUDENT PAPER AWARD FOR OUTSTANDING PAPER ON A CHINA RELATED TOPIC

Spatial Distribution of Urban Territories at a Regional Scale: Modelling the Changjiang Delta’s Urban Network
Chenghe Guan, Harvard University

This award was established in honor of Massachusetts Institute of Technology Professor Karen R. Polenske - a prominent regional economist and a leading scholar of China's sustainable development. It is awarded annually to International Association for China Planning (IACP) student member who presents excellent research at major international planning conferences. This award is generously funded by the IACP and is currently presented at their annual conference in China, and at their annual membership meeting in the United States during the ACSP Annual Conference.

ChengHe Guan's paper is written in a concise way to demonstrate a critical research question and its potential for further developed to be published in a top ranking journal. Yangtze River Delta Area is a good choice and focus for exploring key issues of urban expansion at the regional level concerning aspects such as land resource, developing corridors, ecological systems, different sizes of cities, etc. While some aspects need more justification and clarification such as the selection of scenarios and factors, this paper is an excellent model paper that, apart from description of methodologies and technical exercises, the most valuable contribution is to answer key research question and elaborate key arguments through synthesizing modeling findings and critically discussing possible policy implications.

The 2016 Karen Polenske Award Committee includes: Committee Chair Jason Cao, University of Minnesota; Mengke Chen, World Bank; Shenjing He, University of Hong Kong; and Yiming Wang, University College London.

GPEIG GILL-CHIN LIM AWARD FOR THE BEST DISSERTATION ON INTERNATIONAL PLANNING

The Crude Urban Revolution: Land Markets, Planning Forms and the Making of New Luanda
Ricardo Cardoso, University of California, Berkeley

The ACSP Global Planners Educators Interest Group (GPEIG) recognizes superior scholarship in a doctoral dissertation completed by a student enrolled in an ACSP-member school. This grant is provided by the generous funding of Dr. Hyun-Chin Lim, a young brother of Dr. Gill-Chin Lim at Seoul National University and the Consortium on Development Studies (CODS) established by the late Dr. Gill-Chin Lim in 1982.

Ricardo Cardoso's work exhibits innovative, challenging, creative and poetic scholarship on the complex relations between crude oil resources, international oil deals, urban planning institutions, land and real estate markets and the emergence of new forms of urbanism in Luanda, Angola. The award committee received many excellent dissertations this year. It was a difficult choice. The committee was particularly impressed by the depth of his ethnographic fieldwork and archival research, by the complexity of his institutional analysis, by his theoretical and ethical insights, by his innovative scholarship and creativity, and by the quality of his writing.

In this dissertation, Ricardo explores the relations between crude oil resources, urban planning institutions and city form in Luanda, Angola. The impacts of international trade on urban development are crucial in the Global South, yet they remain under-researched. Ricardo's work provides a very rich account of neo-liberalization processes that goes far beyond, and challenges, arguments on the curse of resource-rich-yet-poor nations in post-colonial settings.

The 2016 Gill-Chin Lim Dissertation Award Committee includes: Committee Chair Lucie Laurian, University of Iowa; Ruth Yabes, University of Florida; Emel Ganapati, Florida International University.
SCHOLARSHIPS FOR TRAVEL

ACSP SCHOLARSHIPS FOR STUDENT TRAVEL

These scholarships provide financial support to students to attend the ACSP Conference, including student full conference registration waiver and a cash award to defray travel expenses. Applicants must be enrolled graduate students at an ACSP member school during the most recent academic year.

Applicants must also be: 1) nearing completion of the doctoral degree, 2) presenting an accepted paper at the conference, and 3) for whom conference attendance would otherwise not be possible.

- Eric Seymour, University of Michigan
- Adele Cassola, Columbia University
- Santina Contreras, University of California, Irvine
- Fei Li, New York University
- Subhashni Raj, University at Buffalo

The 2016 ACSP Student Travel Award Committee includes: Committee Chair Nabil Kamel, Western Washington University; and Kate Lowe, University of New Orleans.

ACSP/ PUBLISHER’S STUDENT TRAVEL SCHOLARSHIP

Generous publishers have become accustomed to leaving books behind from their Book Fair participation at ACSP Conferences. This has enabled the ACSP to use them as a fundraiser selling them for ½ the retail price on Sunday morning of the conference. Since 2005 all sale proceeds have gone toward travel scholarships for first-time student presenters at the next year’s conference. Winners must have an abstract accepted for presentation at the upcoming annual conference and must be attending to present a paper at the ACSP Conference for the first-time.

- Julia Triman, University of Virginia
- Jueyu Wang, University of Minnesota
- Stephen Diko, University of Cincinnati
- Jung Ho Park, University of Southern California

ACSP/POCIG SCHOLARSHIP FOR STUDENT TRAVEL

The goal of these travel awards is to make students of color aware of the importance of planning education/research and why more planning faculty of color are needed. These scholarships provide financial support to students to attend the ACSP Conference including student full conference registration waiver and a cash award to defray travel expenses.

- C. Aujean Lee, University of California, Los Angeles
- Kim Mosby, University of New Orleans
- Devin Oliver, University of Texas, Austin

The 2016 POCIG Student Travel Award Committee includes: Committee Chair Sigmund Shipp, Hunter College CUNY.

GPEIG GILL-CHIN LIM SCHOLARSHIP FOR STUDENT TRAVEL

Only graduate planning students enrolled at an ACSP member school during the 2015-2016 year; presenting papers at the conference with a focus on an international development/global planning topic, with a special focus on low-income countries of the global south, and traveling more than 100 miles are eligible to apply. These scholarships provide financial support to students to attend the ACSP Conference including student full conference registration waiver and a cash award to defray travel expenses.

- Angela Oberg, Rutgers University
- Asavari Devadiga, University of California, Berkeley

The 2016 GPEIG Student Travel Award Committee includes: Committee Chair Divya Chandrasekhar, University of Utah; Enrique Silva, Lincoln Institute of Land Policy; and Abhinav Alakashendra, University of Florida.
Earn AICP CM Credits At ACSP2016 in Portland

Track all the sessions you attend here in Portland and remember to log them online.

Nearly 250 sessions from the ACSP2016 Conference will be entered into the AICP system after the conference is over.

Attend sessions at the ACSP Annual Conference and be assured ahead of time that this attendance will count toward CM, and then apply for these credits in the month after the conference.

If you have problems reporting your CM credits or have general questions about the CM program, please contact AICPCM@planning.org. APA’s customer service associates are available to assist you.

Town Planning Review has been one of the world’s leading journals of urban and regional planning since its foundation in 1910. With an extensive international readership, TPR is well established, providing a principal forum for communication between researchers and students, policy analysts and practitioners. Focusing on advanced economies and emerging industrial states, TPR welcomes full-length papers and shorter research reports exploring all aspects of town and regional planning.

International Development Planning Review’s editorial policy is to reflect international development planning policy and practice. This includes a focus on the physical, economic and social conditions of urban and rural populations. The journal explores current national and international policy agendas, achievements and strategies in this area, offering material of interest to its established academic and professional readership as well as to a broader critical audience.

URBAN PLANNING at the Price School

Issues related to sustainability, economic development, human health, and democratic governance challenge cities across the globe. The Price School leads the way with cutting-edge programs in urban planning. Price urban planning graduates go on to shape our world as leaders in government, nonprofit agencies, and the private sector.

CONGRATULATIONS

Elizabeth Currid-Halkett, Professor, on her appointment as James Irvine Chair in Urban and Regional Planning

Richard Green, Professor; Director of the USC Lusk Center for Real Estate, on his election as a global trustee to the Urban Land Institute, the only academic among the institute’s 48 new trustees

Lisa Schweitzer, Associate Professor, on receiving the Association of Collegiate Schools of Planning 2016 Margarita McCoy Award for advancing women in planning at institutes of higher education

The USC Price School, ranked 4th nationwide among 372 public affairs schools, has defined excellence in urban planning education and research for nearly 90 years.

The Price School consistently ranks among the top 10 graduate programs in urban planning, in the Planetizen Guide.

The Price School Master of Planning program offers concentrations in five areas:
- Economic Development
- Preservation and Design of the Built Environment
- Social and Community Planning
- Sustainable Land Use Planning
- Transportation and Infrastructure Planning

Price Urban Planning Research Centers:
- Center for Economic Development
- Center for Sustainable Cities
- Lusk Center for Real Estate
- METRANS Transportation Center
- Sol Price Center for Social Innovation
- Population Dynamics Research Group
- National Center for Risk and Economic Analysis of Terrorism Events (CREATE)
