THANK YOU

Save a Smile Contribution

The British Columbia Dental Association (BCDA) would like to acknowledge the generous contribution of \$12,419.29 from members of the Academy of Dentistry International to BCDA's Alec Gunning Save a Smile (SAS) program in January 2011. The contribution is part of the transfer of funds from the Dentistry Canada Fund to University of BC's Faculty of Dentistry, the fund administrator.

The SAS program was established in 1991 to provide dental treatment to children who suffer from abscess or serious decay throughout the mouth. Without the assistance of funds from the SAS program, these children would not receive the dental care they need due to financial hardships. Since the program's inception, over 1,200 children in BC have received urgently needed dental treatment.

(From left to right) Dean Charles Shuler, UBC Faculty of Dentistry, and Dr. Angelique Leung, Chair, Save a Smile, receive \$12,419.29 from Dr. Hank Klein, Regent, Canada West, Academy of Dentistry International and President, BCDA.
