

Toward a Developmental Mathematics Collection in the Math Digital Library

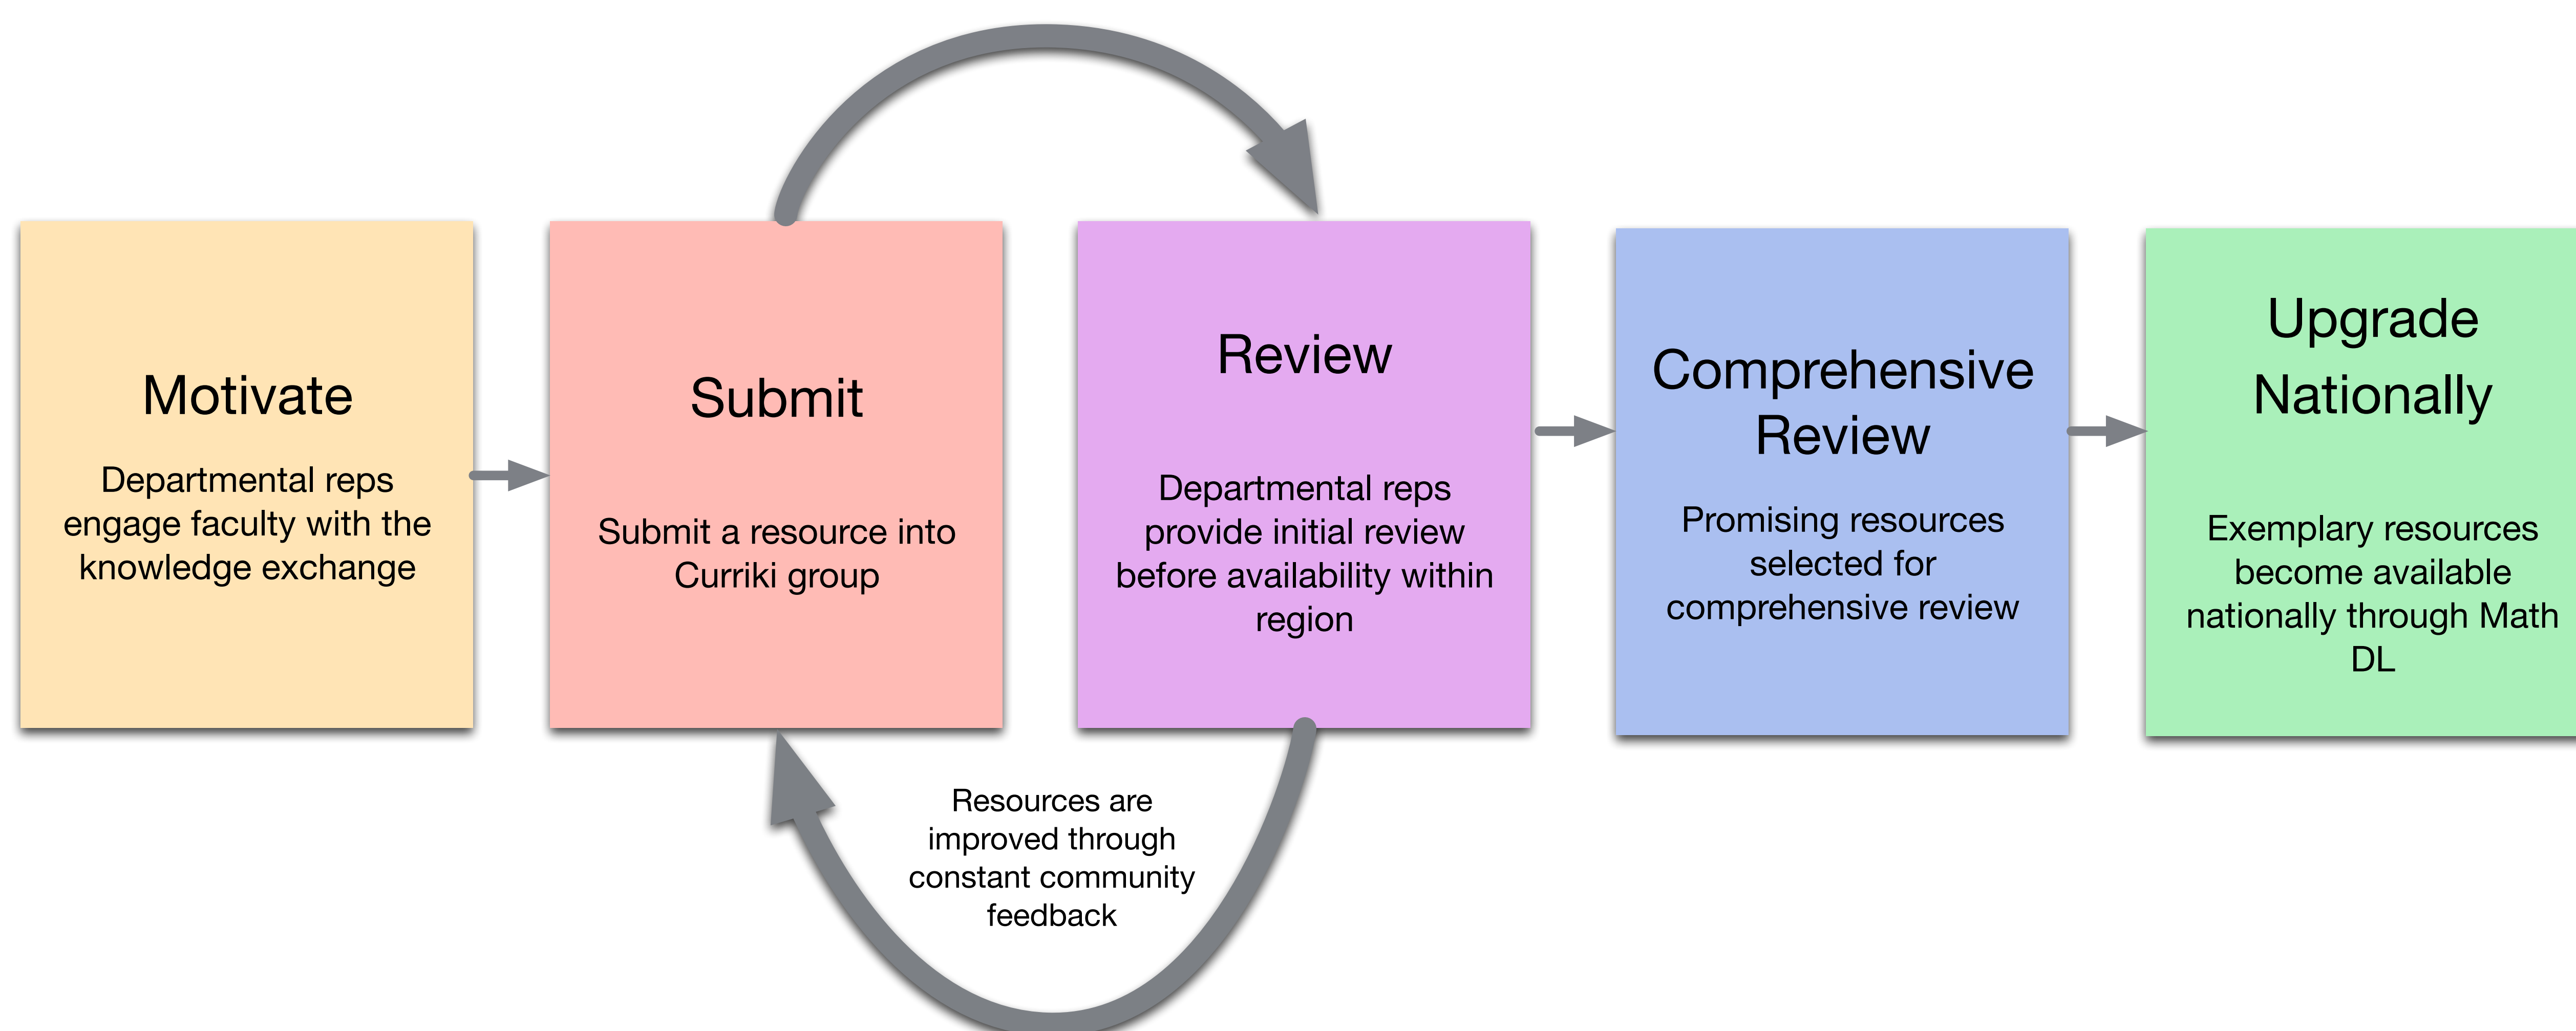

Benefits of a Knowledge Exchange

- Receive feedback on resources you have created for your classes.
- Have professional discussions with other faculty facing similar challenges in the classroom.
- Foster creativity through collaboration.
- Save time by not reinventing the wheel and using excellent resources that have been created and used by other faculty.

Contents of a Developmental Math Collection

- Classroom Activities
- Lesson Plans
- Activities and Demos using Technology
- Study Skills
- Engaging Student Learning and more...
- What else would you like to contribute/share/use?

An Innovative Approach

Unique Curriki Features

- Built in two-tier review system where a resource can be peer-reviewed and given an official rating but can also be given ratings by any faculty that is a member of the group.
- Community notes
- Easy to customize search
