

The 71st AzNA Convention:

This two day intensive program offers a review and update of current concepts reaching across all areas of the nursing profession.

Featured Speakers

Kelley Johnson, BSN, RN
Miss Colorado 2015

As Miss Colorado 2015, Kelley received national notoriety when she performed a monologue about nursing and patient care during 2016 Miss America pageant. After being criticized by talk show hosts for wearing scrubs and a stethoscope, Kelley's monologue went viral and sparked nationwide support for nurses and the nursing profession.

Jane McLeod, MSN, RN
Dear Stress, Let's Break Up

Jane is the co-founder of Capstone Leadership Solutions, specializing in assessing organizations to facilitate planning and execution of operational improvements. Working with staff to ignite the same energy and passion for their careers, as she has for her own, has been the cornerstone of Jane's work.

Kim Richards, RN, NC-BC
Burning Brightly Without Burning Out

As a nurse and an executive recruiter, Kim became increasingly aware of the "revolving door" of nurses. A common theme clearly emerged: Compassion Fatigue. She emphasizes that self-care is not "self-ish", and demonstrates why routine, proactive self nurturing is essential to giving our best to others.
