The California Women LEADership Academy is a full day of interactive discussions and networking that focuses on giving women skills, practical action items and access to a statewide network to inspire them Personally, Professionally, Politically and discuss important Policy issues facing the state.

### Participants will:

Identify if there is a different set of "rules" for women seeking leadership positions in business and civic engagement. How can we identify bias and change it?  
\*\*\*\*

Understand the importance of civic engagement locally and why women's leadership is important at the community level.  
\*\*\*\*

Put leadership skills into action by navigating the civic appointments process to boards and commissions at the local and state level.  
\*\*\*\*

Develop skills and inspiration on how women are changing the rules on issues ranging from leadership positions in the statehouse and board room to pay equity and family leave and why more women need to become engaged.  
\*\*\*\*

Navigate the California State Budget process (6<sup>th</sup> largest economy in the world) and understand the basics of our values statement (where we spend money). Learn how it is developed, negotiated and how it affects you personally.

Thanks to a generous contribution we are offering a limited time SALE!
