WORKSHOP OPPORTUNITIES

CALL FOR PAPERS AND PRESENTATIONS

COMTO is seeking fresh, innovative, and cutting edge proposals for presentations, panel discussions, and workshops that are relevant to our strategic goals, fit clearly into one of the below Tracks, and connect with the conference theme:

Multimodal Transportation: Many Paths, One Goal.

WORKSHOP TRACKS

Historically Underutilized Business

Presentations should be targeted towards solutions to even the playing field for minorities in the transportation industry. Examples may include capacity building programs, mentor, protégé programs, best practices for small emerging and disadvantaged enterprises, business development, business sustainability, and leading joint ventures as a Disadvantaged Business Enterprise (DBE).

Industry Certification

Presentation should meet a specific required industry certification in the transportation industry. The certification should involve management certifications, workforce development certifications, or job related certifications. The session must include all the instruction needed for the participant to earn the certification in the recognized transportation industry sectors (highways, aviation, transit ports).

All presentations should be CEU (Continuing Education Units) eligible. To meet CEU eligibility requirements presentations must have clear and measurable learning outcomes, and provide attendees with tools for professional growth.

Leadership

Presentations should be targeted towards middle to upper level management professional attendees, and should provide best practices, tips, guidelines, and/or practical solutions for professional and leadership development.

Examples may include leadership challenges, workforce development, succession and career planning, negotiating a work life balance, and financial planning.

Transportation - Policy

Presentations should be targeted toward discussions and/or presentations of current and emerging issues in the national transportation industry discourse. Examples may include state of federal implications of the Transportation Bill, new and impactful technologies, safety issues and implications of ATP (Active Training Program) bills in public transportation, and legislative strategies and advocacy in the industry.

Transportation - Technical

Presentations should be targeted towards innovative and cutting-edge case studies, and best practices in the transportation industry. Sessions must include technical content, knowledge, or relevant skills that the participant will learn. The presentation should demonstrate a clear and measurable learning outcome and provide attendees with the tools for professional growth.

All presentations should be CEU (Continuing Education Units) eligible. To meet CEU eligibility requirements presentations must have clear and measurable learning outcomes, and provide attendees with tools for professional growth.
