Dr. Curtis R. Baxstrom

Ever since receiving his first pair of glasses in 6th grade, Dr. Baxstrom felt he wanted to be in a profession that made a difference in people's lives. During completion of his Doctorate in Optometry in 1984, he became very interested in the development of vision and its relationship with reading and learning. With his interests deepening, he completed a Master's degree in Reading at Seattle Pacific University in 1987.

Professionally he is a Fellow of the American Academy of Optometry, College of Optometrists in Vision Development and the Neuro-Optometric Rehabilitation Association. He is a consultant to several school districts as well as Good Samaritan and St. Joseph's Hospital. He has lectured nationally and internationally on visual development, reading, dyslexia, head trauma, amblyopia and strabismus. He has also published original
