

# 6<sup>th</sup> Annual EPA Region 3 Radon Stakeholder Meeting Agenda -draft 3-14-18

**Monday, June 25, 2018**

*Hosted by the Virginia Department of Health and  
Conference of Radiation Control Program Directors*

**Clarion Inn and Conference Center 711 Millwood Avenue, Winchester, VA, 22601**

*(Facilitator: Ryan Paris, VADOH)*

6:30-7:30	REGISTRATION-morning coffee and tea
7:30-9:30	<p><b>CE Course #1: The Dreaded Crawlspace</b> Instructor: Matt Hendrick, Senior Training Specialist, Spruce Environmental Technologies</p> <p><b>Course Description:</b> Learn the "Ins and Outs" of properly mitigating crawlspaces...From level, clean crawls to large uneven and hard to access spaces. Topics include the current standards and effective crawlspace radon reduction methods while also taking a look at some technically challenging job sites and safe practices in confined spaces.</p> <p><b>Course has been approved by NRSB and NRPP( Spruce-207) for 2 Category I credits</b></p>
9:30-9:45	BREAK-coffee and tea
9:45-1:00	<p><b>CE Course #2: Introduction to Control Charts</b> Instructor: Dr. Paul N. Houle, Ph.D. President-University Educational Services, Inc.</p> <p><b>Course Description:</b> This issue discusses in detail the use of control charts when performing duplicate measurements. The viewer will experience the plotting of data on control charts for the purpose of determining the quality of duplicate measurements. Blank control charts are supplied for the viewer's use. Participants should bring a basic calculator.</p> <p><b>Course has been approved by NRSB and NRPP (UES-304) for 3 Category I credits</b></p>
<i>Includes 15-minute break</i>	
1:00-2:15	LUNCH ON YOUR OWN
2:15-5:25	<p><b>CE Course #3: Tampering by the Numbers</b> Instructor: Dr. Paul N. Houle, Ph.D. President-University Educational Services, Inc.</p> <p><b>Course Description:</b> This program is a review of work done to determine what types of tampering affects which kinds of devices and by how much. A detailed discussion of the most likely kinds of tampering, their affects, and what kinds of things can be done to diminish tampering are all discussed. You will see some very simple devices which can be used to foil tampering attempts on electrets, charcoal canisters, and numerous other monitors.</p> <p><b>Course has been approved by NRSB and NRPP (UES-301) for 3 Category I credits</b></p>
<i>Includes 15-minute break for afternoon refreshments</i>	
5:25-5:30	HOUSEKEEPING
