KEYNOTE SPEAKER

KEYNOTE SPEAKER

PAUL DE GELDER

IMPROVISE...ADAPT...OVERCOME

CSDA is thrilled to announce that Paul de Gelder, a shark attack survivor-turned marine life conservationist who features in Discovery Channel's *Shark Week*, will be the association's convention keynote speaker in Maui.

Improvise. Adapt. Overcome. These three words—a mantra de Gelder learned as a young paratrooper in the Australian Army—resonated with him the first time he heard them and helped him through his dramatic, life-changing experience. During an Australian Navy diving exercise in February 2009, Paul lost two limbs after being attacked by a bull shark. He fought through excruciating pain, overcame challenge after challenge and amazed medical staff with his will to succeed. In the seven years since the attack, Paul's life has changed in every aspect. He has become a fierce advocate for sharks and travels the world as a motivational speaker, passionate environmentalist and mentor to school kids. Paul has spoken at venues all around the world in front of thousands, from the United Nations in New York and the U.S. Navy in San Diego to keynotes for multimillion dollar corporations. He has also been a guest on several U.S. talk shows and has co-hosted six documentaries for Discovery Channel's *Shark Week* including swimming with bull sharks—the species that attacked him.

Learn all about de Gelder's extraordinary life during what will be a breathtaking convention keynote in Maui. His inspiring story takes the saying "never say die" to a whole new level and is sure to have you on the edge of your seat.

BUSINESS SESSIONS & TECH FAIR

PRESENTATIONS

Attendees are offered carefully selected business and technical presentations for the purpose of acquiring essential information that can help them grow and improve their businesses. Presenters cover a range of subjects that can assist with both operational and financial elements of a company, from the implementation of structured programs and practices to how to address specific challenges on the jobsite.

PANEL DISCUSSIONS

Participate in an interactive discussion with a panel consisting of contractors and manufacturer representatives who will share their knowledge and experience on a given subject. Panel discussions have been a popular addition to the convention program in recent years as the format is designed to encourage open dialog between panelists and participants.

ROUNDTABLES

Roundtables allow all participants the opportunity to express their thoughts and opinions in a structured, yet informal manner. This format is designed to encourage a free-flowing exchange of information and everyone present is sure to leave with at least one new idea to help their company.

TECH FAIR

Now a mainstay at the Annual Convention, the tabletop Tech Fair continues to provide attendees with an opportunity to learn about the latest innovations and newest products in the industry. Manufacturer and affiliate representatives will be on hand to converse one-on-one with contractors about the tools, equipment and services they offer in an intimate setting that is unattainable at large trade shows. A deli-style lunch will be served and attendees can purchase drinks from the cash bar.
