### WE'RE TAKING THE MAL OUT OF MALPRACTICE INSURANCE

Today, as healthcare continues to undergo unprecedented change, it's more important than ever to have a strong, trusted partner to help doctors focus on what they do best—delivering care. That's why we're taking the mal out of malpractice insurance—to better reflect the kind of forward-thinking partner that practices and organizations are seeking today. It's not lip service. It's in our DNA to support the practice of good medicine in every way. That's malpractice insurance without the mal.
