

Forensic Nursing - Excellence

Gloria DiSalvatore

Fairfield, Maine

Work Setting: Hospital Regional Forensic Program

Gloria is a Preceptor, Forensic nurse examiner, SANE-A, Gloria is an outstanding member of our team. She has been with us since the beginning of our program in 1999. Peer Reviewer for our program

Gloria is so dedicated to the care of sexual assault patients. Her kindness and acceptance of them is obvious from the moment she walks into the room to care for them. Our program has never received a poor report of her professionalism or care of a medical forensic patient. Gloria has been with our program since its inception and she has always stayed home so others could attend IAFN conference. This year she is attending and we are all very excited for her!!

Gloria takes extra call and cases when there is no one on call and to the glee of us all she loves the overnights!!! She shares whenever she learns something new and readily absorbs knowledge shared by others. She uses times of struggle for "educational learning opportunities" for those who don't understand the importance of our work.

Gloria knows what TEAM work is and how to perfect it!
