*These four core courses are prerequisites for the ACHH on-site course. You must have successfully completed these courses prior to registering for the live on-site course.

**Not a Home Health Section member? [Join](#) before registering and you'll save. Section membership is \$45 for APTA member physical therapists. In addition to saving on registration fees, you'll get access to great resources relevant to practice in the home care setting.

Elective courses in this program will expand over time, but initial elective offerings will focus on the following areas in the home health practice setting: vestibular, orthopedic, neurologic, cognition and mental health, incontinence, palliative care, and advanced patient management. Elective courses will be available online in the [APTA Learning Center](#), with the first courses expected to launch Fall of 2017.
