

ONSET

VFC-Compliant Vaccine Storage Monitoring

InTemp CX402-VFC data loggers monitor temperatures in refrigerators, freezers, and other temperature-controlled environments. Designed to streamline data collection and reporting, InTemp meets all of the requirements for the CDC Vaccines for Children program as well as hospitals, clinics, and WHO sites.

NEW!
Get real-time alerts and automatic data downloads with CX Gateway!

- ✓ Get remote notifications of temperature excursions with new CX Gateway device
- ✓ Automatically download data from one or more loggers within range of the new gateway
- ✓ Easily transfer logger data to the free InTempConnect cloud storage
- ✓ Wireless set up and download via Bluetooth Low Energy to mobile devices
