Dear Lora;

Delaware is having a problem with the production of our cab card paper. We had a temporary change so that we could print the expiration date stickers for our carriers. The cab card itself is printed on 8 ½ x 11 stock with the decal located in the bottom right hand corner. The card stock does not have perforations so that the carrier can tear off the cab card from our instructions nor does it have printing on the back as our previous card did for signatures.

We are working with our IT staff to add the signature line on the front so that we may use this stock until January 2014; when we hope to be on our upgraded platform. I will forward the corrected cab card once the change is made.

If anyone has questions or concerns they may contact me at 302-744-2720.

Sincerely,

A handwritten signature in black ink, appearing to read "Robyn Bose". The signature is fluid and cursive, with a large loop at the beginning.
