

Guidelines for Representing ISBER and Distributing Materials at External Conferences

Thank you for your support of ISBER and for representing us at the next conference you are attending. We appreciate your help in distributing ISBER materials so biobanking professionals from around the globe can learn more about our association and our upcoming meetings.

Please note the following guidelines when distributing materials:

1. Distribute materials in designated areas only (eg. bulletin boards, tables for flyers/cards if applicable). Kindly check with the meeting organizer if you are unsure.
2. Distribute materials at designated times during the conference to specific individuals (eg. during coffee breaks, networking opportunities, session breaks, and other times as deemed appropriate)
3. Take materials with you at the end of the conference or recycle them. Please do not leave them in common areas or at exhibitor booths.

By requesting ISBER materials for distribution, you have tacitly agreed to the above guidelines. ISBER reserves the right to terminate access to further ISBER materials and support, financial or otherwise, to persons who do not abide by these guidelines.

Kind Regards,

ISBER Head Office
