The INTERNATIONAL SOCIETY for COMPUTERIZED ELECTROCARDIOLOGY
Announces its 41st Annual Conference

**PLACE:** Omni Tucson National Resort, Tucson, Arizona USA
**DATE:** Wednesday, April 13 – Sunday, April 17, 2016

The Society is devoted to the advancement of electrocardiography through the application of computer methods. Its annual scientific conference, designed in the Gordon format, brings together scientists, clinicians, engineers and policy makers working in the field. Since the conference is designed to stimulate the informal exchange of ideas and information, there is ample “free” time for the 125 or so participants to mingle and discuss ideas of mutual interest.

**TOPICS OF THE ’16 CONFERENCE INCLUDE:**

- ECG in mobile applications
- ECG and electrolyte abnormalities
- Very long ECG monitoring
- ECG criteria enhancement
- Repolarization variability and dynamics
- ECG signal processing
- Cardiac rhythm: diagnosis and dynamics
- ECG technology in telemedicine
- ECG issues in drug development
- ECG imaging technologies
- ECG in cardiac risk stratification
- Stress ECG: diagnosis and prognosis
- ECG in cardiac resynchronization therapy
- ECG and implantable devices
- ECG algorithms and regulatory issues
- Ventricular hypertrophy and cardiac remodeling
- Genetic syndromes, mutations and polymorphisms in electrocardiology
- ECG in neurocardiology
- ECG in acute coronary syndromes

**ABSTRACTS:**

Abstracts may be submitted on the above or related topics. Instructions for abstract submission are available online at [http://www.isce.org](http://www.isce.org). Awards will be presented at the conference for best abstracts. **Deadline for abstracts is December 1, 2015**

**ALSO FEATURING: JOSEPH WILLEMS YOUNG INVESTIGATORS COMPETITION:**

The JWYI competition is open to current students in an academic degree program; to interns, residents or fellows in medical training; and to anyone who has received their highest academic degree (or, for MDs, completed their residency) within the four years prior to the Conference. Young investigators whose submissions are ranked the highest by a panel of judges will be invited as finalists to present their work orally at the Conference and will receive travel funds; an additional panel of judges at the conference will decide the winner. All other Young Investigator submitters will be invited to present their work as a poster at the conference; if they attend and present they will receive a reduced comprehensive conference fee based on the rate that is available to regular ISCE members. Abstracts must be submitted online according to ISCE abstract requirements and instructions which are available on ISCE’s website. Previous finalists may re-apply only once; previous winners of the competition are not eligible to re-apply.

**FOR FURTHER PROGRAM INFORMATION CONTACT:**

**Chairman:**
Marek Malik, MD, PhD  
Imperial College London  
Dovehouse Street  
London UNITED KINGDOM SW3 6LY  
P: 44-20-8660-2112  
E: marek.malik@btinternet.com

**Co-Chairman:**
Jean-Philippe Couderc, PhD  
University of Rochester Medical Center  
HRFUP 265 Crittenden Blvd.  
Rochester, New York 14620 USA  
P: 1-585-275-1096  
E: heartjpc@heart.rochester.edu
