.. Not available. PPP is purchasing power parity; an international dollar has the same purchasing power over GNI as a U.S. dollar has in the United States.
 Note: Rankings include all 214 World Bank Atlas economies, but only those with confirmed GNI per capita estimates or those that rank among the top twenty for the Atlas method are shown in rank order. Figures in italics are for 2013 or 2012. a. 2014 data not available; ranking is approximate. b. Data are for the area controlled by the government of Cyprus. c. Based on regression; other PPP figures are extrapolated from the 2011 International Comparison Program benchmark estimates. d. Based on data officially reported by the National Statistics and Censuses Institute of Argentina. The International Monetary Fund (IMF) has called on Argentina to adopt measures to address the quality of official GDP and consumer price index data, and issued an updated statement on Argentina's progress on June 3, 2015: <http://www.imf.org/external/np/sec/pr/2015/pr15252.htm>. e. Based on data from official statistics of Ukraine and Russian Federation; by relying on these data, the World Bank does not intend to make any judgment on the legal or other status of the territories concerned or to prejudice the final determination of the parties' claims. f. Based on official exchange rates. g. Excludes Abkhazia and South Ossetia. h. Includes Former Spanish Sahara. i. Excludes Transnistria. j. Covers mainland Tanzania only. k. Estimated to be upper middle income (\$4,126 to \$12,735). l. Estimated to be high income (\$12,736 or more). m. Estimated to be low income (\$1,045 or less). n. Estimated to be lower middle income (\$1,046 to \$4,125).
