

Certified Concrete Technicians 2017 Edition

Certified as of January 1, 2017

ACI Concrete Field Testing Technician, Grade I (MDOT Class 1)

ACI Aggregate Technician Level I (MDOT Class 2)

MDOT QC/QA Concrete Technician, Class 3

ACI Concrete Strength Testing Technician

MDOT Concrete Certification Programs

1. **MDOT Class 1 or ACI Grade 1 Field Testing Technician Grade 1 – no prerequisite**
 - a. Technicians testing fresh concrete in field
 - b. Technicians testing fresh concrete in lab

2. **MDOT Class 2 or ACI Aggregate Testing Technician Level 1 – no prerequisite**
 - a. Technicians performing any of the following test on aggregates for concrete
 - i. Sampling Aggregates - Any certified concrete technician can collect field samples of aggregates if the technician has been qualified and supervised by a certified MDOT Class 2 Technician
 - ii. Reducing Samples of Aggregate to Testing Size
 - iii. Materials Finer Than 75- μ m (No. 200) Sieve in Mineral Aggregates by Washing
 - iv. Sieve Analysis of Fine and Coarse Aggregates
 - v. Specific Gravity and Absorption of Coarse Aggregate
 - vi. Specific Gravity and Absorption of Fine Aggregate
 - vii. Total Moisture Content of Aggregate by Drying
 - viii. Organic Impurities in Fine Aggregate for Concrete

3. **MDOT Class 3 – prerequisites include certification as MDOT Class 1, MDOT Class 2, and ACI Strength Testing Technician.**
 - a. Technicians developing concrete mix designs
 - b. Technicians approving concrete mix designs
 - c. Technicians adjusting concrete mix designs

4. **ACI Strength Testing Technician – no prerequisite**
 - a. Technicians breaking strength specimens
 - b. Technicians capping strength specimens

MDOT Class 1 or ACI Concrete Field Testing Technician - Grade I

Scope and Knowledge - The program requires a working knowledge of the following ASTM Standards:

1. C 1064 - Temperature of Freshly Mixed Portland-Cement Concrete
2. C 172 - Sampling Freshly Mixed Concrete
3. C 143 - Slump of Hydraulic Cement Concrete
4. C 138 - Unit Weight, Yield, and Air Content (Gravimetric) of Concrete
5. C 231 - Air Content of Freshly Mixed Concrete by the Pressure Method
6. C 173 - Air Content of Freshly Mixed Concrete by the Volumetric Method
7. C 31 - Making and Curing Concrete Test Specimens in the Field

Certification Requirements

ACI will grant certification only to those applicants who meet both of the following requirements:

- 1) A passing grade on the ACI written examination; and
- 2) Successful completion of the ACI performance examination.

The one-hour **written examination** is "closed book" and consists of 55 multiple choice questions. There are five (5) to ten (10) questions on each of the ASTM Standards. To pass the written examination, both of the following conditions must be met: (a) at least 60% correct for each of the required standards; and (b) a minimum score of 70% overall.

The **performance examination** is also "closed book" and requires actual demonstration of six of the required ASTM Standards plus a verbal description of Sampling, ASTM C 172. The examinee is judged on his/her ability to correctly perform or describe all of the required procedures for each standard.

Recertification is necessary every five (5) years, and requires successful completion of both the written and performance examinations.

MDOT Class 2 or ACI Aggregate Technician Certification Program: Aggregate Testing Technician - Level 1

Scope and Knowledge - The program requires a working knowledge of the following AASHTO/ASTM Standards:

1. T2 / D75 - Sampling Aggregates
2. T248 / C702 - Reducing Samples of Aggregate to Testing Size
3. T11 / C117 - Materials Finer Than 75- μ m (No. 200) Sieve in Mineral Aggregates by Washing
4. T27 / C136 - Sieve Analysis of Fine and Coarse Aggregates
5. T85 / C127 - Specific Gravity and Absorption of Coarse Aggregate
6. T84 / C128 - Specific Gravity and Absorption of Fine Aggregate
7. T255 / C566 - Total Moisture Content of Aggregate by Drying
8. T21 / C40 - Organic Impurities in Fine Aggregate for Concrete

Certification Requirements

ACI will grant certification only to those applicants who meet both of the following requirements:

- 1) A passing grade on the ACI written examination; and
- 2) Successful completion of the ACI performance examination.

The two-hour **written examination** is "open book" and consists of approximately 100 multiple choice questions. There are 8 to 12 questions on each of the Standards. To pass the written examination, both of the following conditions must be met: (a) at least 60% correct for each of the required standards; and (b) a minimum score of 70% overall.

The **performance examination** is "closed book" and requires actual demonstration of the required Standards. The examinee is judged on his/her ability to correctly perform or describe all of the required procedures for each standard.

Recertification is necessary every five (5) years, and requires successful completion of both the written and performance examinations.

MDOT Class 3 Concrete Technician

Scope and Knowledge - The program requires a working knowledge of MDOT concrete specifications 804 – “Concrete Bridges and Structures”, the maturity concept, and mixture design by the absolute volume method presented in Chapter 12 of PCA’s “Design and Controls of Concrete Mixtures.

Certification Requirements

MDOT will grant certification only to those applicants who meet the following requirements:

- 1) A passing grade on the MDOT written examination; and
- 2) Have MDOT Class 1, MDOT Class 2, and ACI Strength Testing Technician certifications.

The four-hour **written examination** is "open book" and consists of approximately 48 questions. There are four sections including; 1) Materials for Concrete and Special Provision 907-804-16, 2) Proportioning of Portland Cement Concrete Mixtures, 3) Concrete Mixture Design Submittals, Eform, Field Verification, and Revisions, and 4) Special Concrete Mixtures for MDOT Projects. To pass the written examination, both of the following conditions must be met: (a) at least 70% correct for each of the required sections; and (b) a minimum score of 80% overall.

Recertification is necessary every five (5) years, and requires successful completion of the written examination.

ACI Strength Testing Technician

Scope and Knowledge - The program requires a working knowledge of the following ASTM Standards:

1. C 617 - Capping Cylindrical Concrete Specimens
2. C 1231 - Unbonded Caps for Concrete Cylinders
3. C 39 - Compressive Strength of Cylindrical Concrete Specimens
4. C 78 - Flexural Strength of concrete

Certification Requirements

ACI will grant certification only to those applicants who meet both of the following requirements:

- 1) A passing grade on the ACI written examination; and
- 2) Successful completion of the ACI performance examination.

The one-hour **written examination** is "closed book" and consists of approximately 40 multiple choice questions. There are at least 8 questions on each of the ASTM Standards. To pass the written examination, both of the following conditions must be met: (a) at least 60% correct for each of the required standards; and (b) a minimum score of 70% overall.

The **performance examination** is also "closed book" and requires demonstration of the required ASTM Standards. The examinee is judged on his/her ability to correctly perform or describe all of the required procedures for each standard.

Recertification is necessary every five (5) years and requires successful completion of both the written and performance examinations.

PUBLICATION DESCRIPTION

This 2016 *Edition of Certified Concrete Technicians* is a bi-annual publication providing an official list of Certified Concrete QC/QA Technicians by the Mississippi Department of Transportation and list of technicians certified by ACI through the Mississippi Concrete Industries Association. Name, employer, and certification expiration dates for each technician are provided in this publication.

ORDERING INFORMATION

This publication is available from the Mississippi Concrete Industries Association. Cost of the publication is \$5.00. Mail your order to MCIA. Allow 4 to 6 weeks for delivery.

Simply send a letter to MCIA requesting the number of publications with the name, address, and phone number of the person to which the publications are mailed. Payment is required prior to shipment.

CORRECTION NOTICE

If there is an error associated with your name, please notify MCIA by providing the correct information in the place provided below and fax this sheet to MCIA at 601.957.5679.
