UGANDA: Trauma Counseling with Child Soldiers & Sex Slaves We need psychotherapists with extensive trauma experience - 10 or many more years.

Why? What these former child soldiers experienced is horrific.

When they were first captured, most had to kill their family or be killed.

They still experience nightmares & flashbacks & what locals describe as "demonic possession" and have only had some help from World Vision when they first were released.

Are you up for the challenge? We need the best and the brightest.

When a social worker from Canada asked an audience of 50 men, how many of them beat their wives. 48 hands went up! "Why" "How else would you get them to mind?" You will also see corporeal punishment in schools and homes.

Are you comfortable with public speaking? Come teach positive reinforcement and positive communication and interaction.

INDIA: Training Barefoot Counselors
