Erica Kirsner, LICSW - Clinical Social Worker in Private Practice, Chair, SWTRS

Group private practice for clinical social workers has become increasingly popular. This presentation takes a close look at three group models, their structure, and their ability to support clinicians in viable private practices. Current issues as well as preparation for the direction of healthcare will be discussed.

Learning Objectives: Participants will learn...
1. Benefits, and possible drawbacks, to working in a social work group practice.
2. How to compare various models of social work group practice.
3. Advantages of the social work group practice model in the new health care climate.
